often regarded by lay and professional people alike in terms of an ordered or disordered binary comforting for some but associated with stigma and othering for others or at worst is reduced to a set of hackneyed memes the stuff of Breakfast television well intentioned and undoubtedly reassuring and helpful for some but patronising and naive for others Overall the volume promotes the subjective and lived experiential voices of its contributors the hallmark of autoethnographic writing Autoethnographies in Psychology and Mental Health will be of interest to psychology and mental health students and professionals with an interest in qualitative inquiry as it intersects with autoethnography and mental health
