**A Citizen's Guide to American Foreign Policy** David Patrick Houghton, 2013-11-20 American foreign policy often looks like a trail of man made debris and disaster Of course the explanations for many poorly made decisions are rather complex In this brief and cogent analysis Houghton shows us that understanding American foreign policy often comes down to recognizing the cognitive limitations of the decision makers which affects the foreign policy process Then there is the nature of the decisions themselves Quite a few decisions in American foreign policy involve tragic choices where leaders are effectively confronted with a series of progressively bad or uncomfortable options And it is equally clear that some policies

are not the product of any one individual's preferences but emerge as a consequence of the way in which complex modern governments with large bureaucracies operate. Written with the interested layperson in mind as well as students of international affairs, this Citizen's Guide to American Foreign Policy asks questions like: Why do presidents so often do things which seem to be directly against the national interests of the United States not just in retrospect but even at the time? Why do there seem to be so many fiascoes in US foreign policy? Why does Congress sometimes tie the hands of the president in foreign affairs? Why do presidents seem to respond more to opinion polls or to what's on CNN and Fox News than they do to the core interests of the United States? Houghton's overview helps us see past the partisan in fighting that too often obscures the central issues in foreign affairs. This is vital required reading for all readers who wish to better understand America's involvement in the world.

*American Foreign Policy in Growth and Action* Hilton Proctor Goss, Charles Marion Thomas, 1959

**American Foreign Policy Since WWII 19th Edition** Steven W. Hook, John Spanier, 2013

Allowing students to truly grasp the functions and frequent dysfunctions of America's foreign policy agenda, this book has long set the standard in guiding students through the complexities of the field.

**Foreign Policy** Steve Smith, Amelia Hadfield, Timothy Dunne, 2012-06-21

Foreign Policy is unique in that it combines theories, actors, and cases in one volume. This approach encourages the reader to appreciate a balanced view of the theory and how foreign policy is carried out in the real world.

*The Mood/Interest Theory of American Foreign Policy* Jack E. Holmes, 2014-07-15

In 1952, Frank L. Klingberg's article on introvert and extrovert American foreign policy moods projected an American turn toward introversion in the late 1960s. After this came to pass, Jack Holmes began to develop a theory of how these moods might work in a more specific sense. His mood interest theory points to a basic conflict between politico-military interests and the foreign policy moods of the American electorate. Holmes presents a pioneering account of the overwhelming impact of public moods on foreign policy. Policy-making structures, executive-legislative relations, presidential personality, pragmatism, moralism, elitism, conservatism, international economics, and humanitarianism are related to the mood interest pattern. Major points are illustrated with examples from 1776 to the present. Holmes's analysis indicates that American moods are continuing unabated according to past patterns, so that American foreign policy may undergo some surprising changes in the next decade. One of the author's hopes is that emphasis on the importance of national moods will help avoid future extremes. This book is bold in its assertions and points to major problems in the analysis of American foreign policy. Whether or not the reader agrees with the entire analysis, he or she will be challenged to think about American foreign policy in new and perhaps revealing ways.

**Foreign Policy Making in Taiwan** Dennis V. Hickey, 2006-12-05

Following President Chen Shui-bian's victory in the controversial 2004 presidential election, this book examines the future direction of Taiwan's foreign policy, focusing on the internal and external forces that influence and shape the country's foreign policy decisions today. The author

suggests that four levels of analysis the international system governmental structure societal forces and individual factors pose some explanatory value when seeking to understand Taipei's foreign policy behaviour Taiwan's foreign policy decision making remains an extremely complex process involving many important variables However the author's detailed analysis reveals that external factors particularly seismic shifts in global politics and the role of China and the US have had an extraordinary degree of influence over the island's foreign relations This book highlights these factors as important considerations that continue to play a critical role in shaping Taiwan's foreign policy Providing a clear analysis of the dynamics of Taiwan's foreign policy *Foreign Policy Making in Taiwan* is an important addition to the literature on Taiwan and will be essential reading for followers of Chinese politics comparative politics and foreign policy analysis American Foreign and National Security Policies, 1914-1945 Thomas H.
