new third edition provides an update on what is known about street gangs throughout the world and summarizes some of the major works on street gang phenomena. It focuses on those countries that have a greater presence in the literature. Chapter 1 introduces the reader to the topic of street gangs throughout the world. Chapter 2 identifies some of the challenges faced by scholars when studying gangs in different countries. Chapter 3 reviews some of the basic research on street gangs in the United States and Canada. Chapter 4 covers what is known about street gangs in Europe and Russia. Chapter 5 reviews the literature on street gangs in one of the hottest areas of the world for gangs: Central America. In addition, this chapter examines South American and Caribbean gangs. Street gangs in Brazil, El Salvador, Guatemala, Jamaica, Brazil, Mexico, Nicaragua, Trinidad, and other countries are covered. The presence of street gangs and gang violence in these and other countries has been identified as a major factor in the mass migration of refugees to the United States. Chapter 6 reports on the street gangs of Africa. Research on gangs in South Africa goes back decades, and the country has a unique history on how gangs evolved. Other countries such as Egypt, Nigeria, and Kenya are developing a body of literature that highlights the distinctive nature of gangs and gang members in these countries. Chapter 7 addresses street gangs in Asia, including China, India, Hong Kong, post-reunification Japan, and other countries. This chapter provides rare glimpses of gangs in China, a relatively secretive country. Although different in many ways from gangs in Asia, information is also included here about gangs in Australia and New Zealand. Practitioners in the criminal justice and juvenile justice fields will find this book to be a valuable resource.

**Global Visions of Violence** Jason Bruner, David C. Kirkpatrick, 2022-12-09. In *Global Visions of Violence*, the editors and contributors argue that violence creates a lens, bridge, and method for interdisciplinary collaboration that examines Christianity worldwide in the twentieth and twenty-first centuries. By analyzing the myriad ways violence, persecution, and suffering impact Christians and the imagination of Christian identity globally, this interdisciplinary volume integrates the perspectives of ethicists, historians, anthropologists, and ethnographers to generate new conversations. Taken together, the chapters in this book challenge scholarship on Christian growth that has not accounted for violence while analyzing persecution narratives that can wield data toward partisan ends. This allows *Global Visions of Violence* to push urgent conversations forward, giving voice to projects that illuminate wide and often hidden landscapes that have been shaped by global visions of violence and seeking solutions that end violence and turn toward the pursuit of justice, peace, and human rights among suffering Christians.

**Protestantism and State Formation in Postrevolutionary Oaxaca** Kathleen M. McIntyre, 2019-05-15. In this fascinating book, Kathleen M. McIntyre traces intra-village conflicts stemming from Protestant conversion in southern Mexico and successfully demonstrates that both Protestants and Catholics deployed cultural identity as self-defense in clashes over local power and authority. McIntyre's study approaches religious competition through an examination of disputes over *tequio* (collective work projects) and cargo (civil religious hierarchy participation). By framing her study between the Mexican Revolution of 1910 and the Zapatista uprising of 1994, she demonstrates the ways Protestant

conversion fueled regional and national discussions over the state's conceptualization of indigenous citizenship and the parameters of local autonomy. The book's timely scholarship is an important addition to the growing literature on transnational religious movements, gender, and indigenous identity in Latin America.

**In the Hands of God** Johanna Bard Richlin, 2022-05-24

How evangelical churches in the United States convert migrant distress into positive religious devotion? Why do migrants become more deeply evangelical in the United States, and how does this religious identity alter their self-understanding? *In the Hands of God* examines this question through a unique lens, foregrounding the ways that churches transform what migrants feel. Drawing from her extensive fieldwork among Brazilian migrants in the Washington DC area, Johanna Bard Richlin shows that affective experience is key to comprehending migrants' turn toward intense religiosity and their resulting evangelical commitment. The conditions of migrant life—family separation, geographic isolation, legal precariousness, workplace vulnerability, and deep uncertainty about the future—shape specific affective maladies, including loneliness, despair, and feeling stuck. These feelings, in turn, trigger novel religious yearnings. Evangelical churches deliberately and deftly articulate, manage, and reinterpret migrant distress through affective therapeutics: the strategic healing of migrants' psychological pain. Richlin offers insights into the affective dimensions of migration, the strategies pursued by evangelical churches to attract migrants, and the ways in which evangelical belonging enables migrants to feel better, emboldening them to improve their lives. Looking at the ways evangelical churches help migrants navigate negative emotions, *In the Hands of God* sheds light on the versatility and durability of evangelical Christianity.

*Religion Around Bono* Chad E. Seales, 2019-10-24

For many U.S. fans, Bono is an icon of both evangelical spirituality and secular moral activism. In this book, Chad E. Seales examines the religious and spiritual culture that has built up around the rock star over the course of his career and considers how Bono engages with that religion in his music and in his activism. Looking at Bono and his work within a wider critique of white American evangelicalism, Seales traces Bono's career from his background in religious groups in the 1970s to his rise to stardom in the 1980s and his relationship with political and economic figures such as Jeffrey Sachs, Bill Clinton, and Jesse Helms. In doing so, Seales shows us a different Bono: one who uses the spiritual meaning of church tradition to advocate for the promise that free markets and for-profits will bring justice and freedom to the world's poor. Engaging with scholarship in popular culture, music, religious studies, race, and economic development, Seales makes the compelling case that neoliberal capitalism is a religion and that Bono is its best-known celebrity revivalist. Engagingly written and bitingly critical, *Religion Around Bono* promises to transform our understanding of the rock star's career and advocacy. Those interested in the intersection of rock, music, religion, and activism will find Seales's study provocative and enlightening.

**Fires of Gold** Lauren Coyle Rosen, 2020-04-21

*Fires of Gold* is a powerful ethnography of the often shrouded cultural, legal, political, and spiritual forces governing the gold mining industry in Ghana, one of Africa's most celebrated democracies. Lauren Coyle Rosen argues that significant sources of power have arisen outside of the formal legal system to police, adjudicate, and

navigate conflict in this theater of violence destruction and rebirth These authorities or shadow sovereigns include the transnational mining company collectivized artisanal miners civil society advocacy groups and significant religious figures and spiritual forces from African Islamic and Christian traditions Often more salient than official bodies of government the shadow sovereigns reveal a reconstitution of sovereign power one that in many ways is generated by hidden dimensions of the legal system Coyle Rosen also contends that spiritual forces are central in anchoring and animating shadow sovereigns as well as key forms of legal authority economic value and political contestation This innovative book illuminates how the crucible of gold itself governed by spirits serves as a critical site for embodied struggles over the realignment of the classical philosophical triad the city the soul and the sacred

[The Kingdom of God Has No Borders](#) Melani McAlister, 2018-07-02  
Award of Merit 2019 Christianity Today Book Awards History Biography More than forty years ago conservative Christianity emerged as a major force in American political life Since then the movement has been analyzed and over analyzed declared triumphant and more than once given up for dead But because outside observers have maintained a near relentless focus on domestic politics the most transformative development over the last several decades the explosive growth of Christianity in the global south has gone unrecognized by the wider public even as it has transformed evangelical life both in the US and abroad The Kingdom of God Has No Borders offers a daring new perspective on conservative Christianity by shifting the lens to focus on the world outside US borders Melani McAlister offers a sweeping narrative of the last fifty years of evangelical history weaving a fascinating tale that upends much of what we know or think we know about American evangelicals She takes us to the Congo in the 1960s where Christians were enmeshed in a complicated interplay of missionary zeal Cold War politics racial hierarchy and anti colonial struggle She shows us how evangelical efforts to convert non Christians have placed them in direct conflict with Islam at flash points across the globe And she examines how Christian leaders have fought to stem the tide of HIV AIDS in Africa while at the same time supporting harsh repression of LGBTQ communities Through these and other stories McAlister focuses on the many ways in which looking at evangelicals abroad complicates conventional ideas about evangelicalism We can't truly understand how conservative Christians see themselves and their place in the world unless we look beyond our shores

**A Diagram for Fire** Jon Bialecki, 2017-03-07 What is the work that miracles do in American Charismatic Evangelicalism How can miracles be unanticipated and yet worked for And finally what do miracles tell us about other kinds of Christianity and even the category of religion A Diagram for Fire engages with these questions in a detailed sociocultural ethnographic study of the Vineyard an American Evangelical movement that originated in Southern California The Vineyard is known worldwide for its intense musical forms of worship and for advocating the belief that all Christians can perform biblical style miracles Examining the miracle as both a strength and a challenge to institutional cohesion and human planning this book situates the miracle as a fundamentally social means of producing change surprise and the unexpected used to reimagine and reconfigure the will Jon Bialecki shows how this configuration of the miraculous

shapes typical Pentecostal and Charismatic religious practices as well as music reading economic choices and conservative and progressive political imaginaries **The Weight of Obesity** Emily Yates-Doerr, 2015-09-22 Introduction the richness of eating Disease of modernities Nutritional black boxing Care of the social Contemporary body counts Bodies in balance Many values of health Conclusion the opposite of obesity re forming the body in global health **Cultural Approaches to Studying Religion** Sarah J. Bloesch, M. Cooper Minister, 2018-10-18 This is the first book to provide an introduction to contemporary cultural approaches to the study of religion This book makes sophisticated ideas accessible at an introductory level and examines the analytic tools of scholars in religious studies as well as in related disciplines that have shaped the field including anthropology history literature and critical studies in race sexuality and gender Each chapter is written by a leading scholar and includes the biographical and historical context of each theorist their approaches and key writings analysis and evaluation of each theory suggested further reading Part One Comparative Approaches considers how major features such as taboo texts myths and ritual work across religious traditions by exploring the work of Mary Douglas Phyllis Tribble Wendy Doniger and Catherine Bell Part Two Examining Particularities analyzes the comparative approach through the work of Alice Walker Charles Long and Caroline Walker Bynum who all suggest that the specifics of race body place and time must be considered Part Three Expanding Boundaries examines Gloria Anzaldúa's language of religion as well as the work of Judith Butler on performative queer theories of religion and concludes with Saba Mahmood whose work considers postcolonial religious encounters secularism and the relationship between East and West Reflecting the cultural turn and challenging the existing canon this is the anthology instructors have been waiting for For primary texts by the theorists discussed please consult *The Bloomsbury Reader in Cultural Approaches to the Study of Religion* edited by Sarah J Bloesch and Meredith Minister **Break Every Yoke** Joshua Dubler, Vincent W. Lloyd, 2020 Changes in the American religious landscape enabled the rise of mass incarceration Religious ideas and practices also offer a key for ending mass incarceration These are the bold claims advanced by *Break Every Yoke* the joint work of two activist scholars of American religion Once in an era not too long past Americans both incarcerated and free spoke a language of social liberation animated by religion In the era of mass incarceration we have largely forgotten how to dream and organize this way To end mass incarceration we must reclaim this lost tradition Properly conceived the movement we need must demand not prison reform but prison abolition *Break Every Yoke* weaves religion into the stories about race politics and economics that conventionally account for America's grotesque prison expansion of the last half century and in so doing it sheds new light on one of our era's biggest human catastrophes By foregrounding the role of religion in the way political elites religious institutions and incarcerated activists talk about incarceration *Break Every Yoke* is an effort to stretch the American moral imagination and contribute resources toward envisioning alternative ways of doing justice By looking back to nineteenth century abolitionism and by turning to today's grassroots activists it argues for reclaiming the abolition spirit **Crime and Justice, Volume 51**

Michael Tonry, Sandra Bucerius, 2023-01-04 Volume 51 is a thematic volume on Prisons and Prisoners Since 1979 the Crime and Justice series has presented a review of the latest international research providing expertise to enhance the work of sociologists psychologists criminal lawyers justice scholars and political scientists The series explores a full range of issues concerning crime its causes and its cures In both the review and the occasional thematic volumes Crime and Justice offers an interdisciplinary approach to address core issues in criminology Volume 51 of Crime and Justice is the first to reprise a predecessor Prisons Volume 26 1999 edited by series editor Michael Tonry and the late Joan Petersilia In Prisons and Prisoners editors Michael Tonry and Sandra Bucerius revisit the subject for several reasons In 1999 most scholarly research concerned developments in Britain and the United States and was published in English Much of that was sociological focused on inmate subcultures or psychological focused on how prisoners coped with and adapted to prison life Some principally by economists and statisticians sought to measure the crime preventive effects of imprisonment generally and the deterrent effects of punishments of greater and lesser severity In 2022 serious scholarly research on prisoners prisons and the effects of imprisonment has been published and is underway in many countries That greater cosmopolitanism is reflected in the pages of this volume Several essays concern developments in places other than Britain and the United States Several are primarily comparative and cover developments in many countries Those primarily concerned with American research draw on work done elsewhere The subjects of prison research have also changed Work on inmate subcultures and coping and adaptation has largely fallen by the wayside Little is being done on imprisonment's crime preventive effects largely because they are at best modest and often perverse An essay in Volume 50 of Crime and Justice examining the 116 studies then published on the effects of imprisonment on subsequent offending concluded that serving a prison term makes ex prisoners on average more not less likely to reoffend In 1999 little research had been done on the effects of imprisonment on prisoners families children or communities or even except for recidivism on ex prisoners later lives family life employment housing physical and mental health or achievement of a conventional law abiding life The first comprehensive survey of what was then known was published in the earlier Crime and Justice Prisons volume An enormous literature has since emerged as essays in this volume demonstrate Comparatively little work had been done by 1999 on the distinctive prison experiences of women and members of non White minority groups That too has changed as several of the essays make clear What is not clear is the future of imprisonment Through more contemporary and global lenses the essays featured in this volume not only reframe where we are in 2022 but offer informed insights into where we might be heading **Carceral Citizens** Caroline M. Parker, 2025-02-10 A nuanced take on how carceral expansions are changing labor and social life In Carceral Citizens anthropologist Caroline M Parker offers an ethnographic portrait of therapeutic communities in Puerto Rico the oldest colony in the Americas As nonprofits nested within the carceral state therapeutic communities serve as reeducation and recovery centers for the mostly male drug offenders who serve out their sentences engaged in manual labor and prayer The most

surprising aspect of these centers however is that their graduates often remain long after the completion of their term working as self appointed peer counselors in a mixture of volunteer and low wage positions Parker seeks to explain this dynamic by showing how in these therapeutic communities criminalized men find new and meaningful ways of living in the shadow of the prison Through their participation in the day to day functioning of the centers they discover and cultivate alternative forms of belonging livelihood and citizenship despite living within the restrictions of the carceral state Situating her study against the backdrop of Puerto Rico s colonial history and with findings that extend across Latin America Parker challenges common assumptions about confinement labor and rehabilitation By delving into lives shaped by the convergence of imperialism the carceral state and self help she offers a fresh understanding of the transformations of labor and social life brought about by mass incarceration
