Seducing America Roderick P. Hart, 1998-07-27 Roderick P Hart's revised edition of *Seducing America* is an eye opening look at how television's format of presenting politics to its viewers has changed the way television watching citizens act, vote and feel about politics in this country. While television makes us feel knowledgeable, important, informed and close to our political representatives it disguises dissatisfaction with the political system and with ourselves. Hart's rigorous blend of rhetorical and statistical research plus his eloquent and passionate writing make this book a superb supplementary text for political communication and media studies courses that will help engage students in provocative discussions about media and politics.
