

Analysis of Seeing by Annie Dillard

Max 11/5/12 Eng. 101 9:30-11:00 "Seeing" by Annie Dillard: 1) According to Dillard, lovers and the knowledgeable can see well. Yet she also suggests that those who are knowledgeable on a topic, such as people who have been blind from birth and can suddenly see (due to an operation), can perhaps view more objectively the world around them, and see it in a way that those with vision from birth cannot.

Infants, she says, can see very clearly, for they are viewing the world for the first time, and can observe the colors and the light with no prejudgments, but we forget this experience as we grow older, and only occasionally catch glimpses of this phenomenon. 2) Lovers can see well, because their vision transcends the obvious, if they love a lake, they do not merely see a lake, but also see what the lake represents for them, they see meaning.

The knowledgeable can see because as small children we are constantly learning, but those who are knowledgeable continue to learn throughout their lives, which enables them to keep discovering new ways to view the world and allows them to keep an open mind and open eye. Those who know little can see, but only if they are open to knowledge, even if that knowledge is self taught, they just must be open to experience and to wonder.) Seeing contributes to happiness because when we allow ourselves to see, we allow ourselves to open our minds and our hearts, and to see the wonder in the world, which we often close ourselves off to as we grow older. Perhaps when we begin to learn of all the sufferings of reality, we close ourselves off to seeing, because we don't want to know, but if we do not allow ourselves to see and feel suffering, we shut the door to the joys and wonders of this world as well.) The part of Dillard's essay which struck me the most was her retelling of the experiences of those who had been blinded from birth and were then granted sight, and how they did not have a sense of visual space or distance. It made me realize how my perception of the world is a combination of all my senses, and I can't really distinguish them. If I see an apple, I don't only see it, but I imagine how it feels, tastes, smells, sounds as I bite into it. It is hard to separate each of those from each other, but the sound of an apple being bitten into without the knowledge of it being an apple or knowing what it tastes or smells like, is a novel idea. To think of it separately is difficult, but if you can isolate it, it is truly fascinating, exciting even, for it is like a whole new experience. 5) When Dillard uses the term seeing, she means seeing something beyond the obvious. When looking at a tree, not seeing just a tree, but seeing it as if you were seeing it for the first time, and seeing it for all that it entails.) A person may "see" not with the eyes, if they were to feel something deep within themselves that could not be attributed to any of the senses. Seeing in this case means to understand what the view means to the individual. 7) See is most closely a synonym with understand and appreciate. What Dillard means is to appreciate, for often we go through life not "seeing" because we are ungrateful. However, one cannot truly

Seeing Silence Mark C. Taylor, 2022-02-18 Finding silence amidst restlessness is what makes creative life possible and death comprehensible But how do we find more importantly how do we understand silence while immersed in the chattering of the digital age Have we forgotten how to listen Are we less prepared than ever for the ultimate silence that awaits us all Mark C Taylor's new book is a philosophy of silence for our nervous buzzing present a timely work for a world where noise is a means of distraction domination and control Here Taylor asks the reader to pause long enough to hear what is not said and to attend to what remains unsayable But in his account our way to hearing silence is to see it Taylor explores

variations of silence by considering the work of leading modern and postmodern visual artists from Barnett Newman and Ad Reinhardt to James Turrell and Anish Kapoor Drawing also on the insights of philosophers theologians writers and composers he weaves a rich narrative modeled on the Stations of the Cross We come from and return to silence in between silence is the gap hesitation interval that allows thoughts to form and words to emerge he writes His chapter titles suggest our positions toward silence or rather our pre positions Without Before From Beyond Against Within Around Between Toward With In Recasting Hegel s phenomenology of spirit and Kierkegaard s stages on life s way Taylor translates the traditional Via Dolorosa into a Nietzschean Via Jubilosa that affirms silence in the midst of noise light in the midst of darkness **Writing**
