hypothesis on literary and historical grounds She argues that far from softening the Gospel's anti Jewishness the Gospel's Jewish elements in fact contribute to it Focusing on the Gospel's persuasive language and intentions Reinhartz shows that the Gospel's anti Jewishness is evident not only in the Gospel's hostile comments about the Jews but also in its appropriation of Torah Temple and Covenant that were so central to first century Jewish identity Through its skillful use of rhetoric the Gospel attempts to convince its audience that God's favor had turned away from the Jews to the Gentiles that there is a deep rift between the synagogue and those who confess Christ as Messiah and that in the Gospel's view this rift was initiated in Jesus own lifetime The Fourth Gospel Reinhartz argues appropriates Jewishness at the same time as it repudiates Jews In doing so it also promotes a parting of the ways between those who believe that Jesus is the messiah the Son of God and those who do not that is the Jews This rhetorical program she suggests may have been used to promote outreach or even an organized mission to the Gentiles following in the footsteps of Paul and his mid first century contemporaries **Concordance to the Bible** Robert Young, 1910 Analytical Concordance to the Bible on an Entirely New Plan Robert The Golden Book Magazine ,1926 The Rover series: Books 1-5 Amelia Shaw, A pixie sized bounty hunter Young, 1880 A sexy Fae prince A world of secrets Fans of Buffy the Vampire Slayer and J R Ward will devour this Slow Burn Romantic Urban Fantasy series Great story interesting twists amazing characters Strong female lead Can t wait for the next book Must read for fantasy readers Zoey s petite but goes off like a grenade Ms Shaw references Frida Kahlo s guote which describes Zoey perfectly Her snark breaks the ice in intense situations be it the action or emotional The action is nonstop throughout and characters are engaging It's definitely a page turner and will keep readers on edge It does end with a cliffhanger but brings on more questions as to the twin fae connection A unique new series filled with action and drama worth reading This is an urban fantasy story. Looking at Numbers Tom Johnson, Franck Jedrzejewski, 2013-11-27 Galileo Galilei said he was reading the book of nature as he observed pendulums swinging but he might also simply have tried to draw the numbers themselves as they fall into networks of permutations or form loops that synchronize at different speeds or attach themselves to balls passing in and out of the hands of good jugglers Numbers are after all a part of nature As such looking at and thinking about them is a way of understanding our relationship to nature But when we do so in a technical professional way we tend to overlook their basic attributes the things we can understand by simply looking at numbers Tom Johnson is a composer who uses logic and mathematical models such as combinatorics of numbers in his music The patterns he finds while looking at numbers can also be explored in drawings This book focuses on such drawings their beauty and their mathematical meaning The accompanying comments were written in collaboration with the mathematician Franck Jedrzejewski
