Course-Based Undergraduate Research Nancy H. Hensel, 2023-07-03 Co published with the Council on Undergraduate Research Undergraduate research has long been recognized as a high impact practice HIP but has unfortunately been offered only to juniors and seniors and to

very few of them often in summer programs This book shows how to engage students in authentic research experiences built into the design of courses in the first two years thus making the experience available to a much greater number of students Research that is embedded in a course especially general education courses addresses the issue of how to expand undergraduate research to all students Research has shown that students who have early experiences in undergraduate research are more likely to pursue further research prior to and after graduation This is also an issue of social justice because it makes the benefits of undergraduate research available to students who must work during the academic year and in the summer It is widely accepted that the skills developed through undergraduate research help prepare students for their future careers The book addresses all aspects of the topic including What are appropriate expectations for research in the first two years How to design appropriate course based research for first and second year students How to mentor a class rather than individual students How students can disseminate the results of their research Possible citizen science projects appropriate for the first and second years Providing additional resources available to support course based research in the first two years Designed for faculty at four year and two year colleges and including examples from the sciences the social sciences and the humanities the strategies and methods described can be adapted to disciplines not specifically mentioned in the book Many faculty are hesitant to engage first and second year students in undergraduate research because they worry students don't know enough to conduct authentic research in their discipline because they worry about the time it will take to develop activities for these students and because they wonder how they can mentor a whole class of students doing research The authors have successfully dealt with these issues and provide examples of how it's done

Inclusion as Social Justice ,2020-07-13 Inclusion as Social Justice Theory and Practice in African Higher Education discusses the extent to which education enables equitable social access for diverse student populations in the context of historical sidelining of indigenous knowledge systems and epistemic injustice of colonial epistemologies in Africa The goal is to theoretically unpack the social differentials and micro inequities that practically disempower diverse students in African higher education To this end the book features aspects of diversity such as gender rurality refugee status and disability in general with hearing and visual impairment as prime illustrations It is argued that despite the ethically defensible and socially just policy and structural interventions for transforming higher education meant to redress the legacy of colonial injustices urban universities present epistemological equity challenges for students from rural communities Similarly the opaque fate of students displaced from their home countries and currently studying in universities in host countries is analyzed The book illustrates the access case for gender and disability in higher education using empirical studies and examples from Tanzania Kenya Ethiopia Zimbabwe and South Africa Challenges facing students in higher education in these countries and the strategies the students devise to succeed in the institutions are analyzed

Understanding International Students from Asia in American Universities Yingyi Ma,Martha A. Garcia-Murillo,2017-10-20 This book is about international students from Asia studying at American universities in the age of globalization It explores significant questions such as Why do they want to study in America How do they make their college choices To what extent do they integrate with domestic students and what are the barriers for intergroup friendship How do faculty and administrators at American institutions respond to changing campus and classroom dynamics with a growing student body from Asia Have we provided them with the skills they need to succeed professionally As they are preparing to become the educational managerial and entrepreneurial elites of the world do Asian international students plan to stay in the U S or return to their home country Asian students constitute over 70 percent of all international students Almost every major American university now faces unprecedented enrollment growth from Asian students However American universities rarely consider if they truly understand the experiences and needs of these students This book argues that American universities need to learn about their Asian international students to be able to learn from them It challenges the traditional framework that emphasizes adjustment and adaptation on the part of international students It argues for the urgency to shift from this framework to the one calling for proactive institutional

efforts to bring about successful experiences of international students

The International History of Communication Study Peter Simonson, David W. Park, 2015-10-14 *The International History of Communication Study* maps the growth of media and communication studies around the world Drawing out transnational flows of ideas institutions publications and people it offers the most comprehensive picture to date of the global history of communication research and education This volume reaches into national and regional areas that have not received much attention in the scholarship until now including Asia Latin America Africa and the Middle East alongside Europe and North America It also covers communication study outside of academic settings in international organizations like UNESCO and among commercial and civic groups It moves beyond the traditional canon to cover work by forgotten figures including women scholars in the field and those outside of the United States and Europe and it situates them all within the broader geopolitical institutional and intellectual landscapes that have shaped communication study globally Intended for scholars and graduate students in communication media studies and journalism this volume pushes the history of communication study in new directions by taking an aggressively international and comparative perspective on the historiography of the field Methodologically and conceptually the volume breaks new ground in bringing comparative transnational and global frames to bear and puts under the spotlight what has heretofore only lingered in the penumbra of the history of communication study

Walking Distance David Hlavsa, 2015-08-01 In the summer of 2000 David Hlavsa and his wife Lisa Holtby embarked on a pilgrimage After trying for three years to conceive a child and suffering through the monthly cycle of hope and disappointment they decided to walk the Camino de Santiago a joint enterprise and an act of faith

they hoped would strengthen their marriage and prepare them for parenthood Though walking more than 400 miles across the north of Spain turned out to be more difficult than they had anticipated after a series of misadventures including a brief stay in a Spanish hospital they arrived in Santiago Shortly after their return to Seattle Lisa became pregnant and the hardships of the Camino were no comparison to what followed the stillbirth of their first son and Lisa s harrowing second pregnancy Walking Distance is a moving and disarmingly funny book a good story with a happy ending the safe arrival of David and Lisa s second son Benjamin David and Lisa get more than they bargained for but they also get exactly what they wanted a child a solid marriage and a richer life Social Media for Student Affairs in #HigherEducation Brandon C.

Superchurch Jonathan J. Edwards,2015-04-01 Christian Fundamentalism is a doctrine and a discourse in tension Fundamentalists describe themselves as both marginal and a majority They announce the imminent end of the world while building massive megachurches and political lobbying organizations They speak of the need for purity and separation from the outside world while continually innovating in their search for more effective and persuasive ways to communicate with and convert outsiders To many outsiders Fundamentalist speech seems contradictory irrational intolerant and dangerously antidemocratic To understand the complexity of

Fundamentalism we have to look inside the tensions and the paradoxes We have to take seriously the ways in which Fundamentalists describe themselves to themselves and to do that we must begin by exploring the central role of the church in Fundamentalist rhetoric and politics Drawing on five fascinating case studies Superchurch blends a complex yet readable treatment of rhetorical and political theory with a sophisticated approach to Fundamentalism that neither dismisses its appeal nor glosses over its irresolvable tensions Edwards challenges theories of rhetoric counterpublics deliberation and civility while offering critical new insights into the evolution and continuing influence of one of the most significant cultural and political movements of the past century *Can We Survive Our Origins?* Pierpaolo Antonello, Paul Gifford, 2015-01-01 Are religions intrinsically violent as is strenuously argued by the new atheists Or as Girard argues have they been functionally rational instruments developed to manage and cope with the intrinsically violent runaway dynamic that characterizes human social organization in all periods of human history Is violence decreasing in this time of secular modernity post Christendom as argued by Steven Pinker and others Or are we rather at increased and even apocalyptic risk from our enhanced powers of action and our decreased socio symbolic protections Rene Girard s mimetic theory has been slowly but progressively recognized as one of the most striking breakthrough contributions to twentieth century critical thinking in fundamental anthropology in particular for its power to model and explain violent sacralities ancient and modern The present volume sets this power of explanation in an evolutionary and Darwinian frame It asks How far do cultural mechanisms of controlling violence which allowed humankind to cross the threshold of hominization i e to survive and develop in its evolutionary emergence still represent today a default setting that threatens to destroy us Can we transcend them and escape their field of gravity Should we look to or should we look beyond Darwinian survival What and where if anywhere is salvation **Comprehensive Handbook of Pediatric Audiology, Second Edition** Anne Marie
