Self Reliance 1 Nov Dec 2013:

Treatment and Management of Maladaptive Schemas Eric A. Kreuter, Kenneth M. Moltner, 2014-08-01 This volume explores new ground in the area of personal transformation achieved partly through a person's volition with a guide or catalyst. The authors research and define the dynamics of paradigmatic thinking incorporating a series of case vignettes of personal transitions. They describe impediments to such change as well as the post transformation state of mind where vulnerabilities may persist. The resultant need for on going commitment may include guidance or coaching in order to sustain the positive effect of a change in paradigm. An important feature of the book is a case study written by Rex a participant in Dr Kreuter's earlier work. Rex has achieved significant change in his thought process both in how he sees the world less sinister and his self perspective worthy and connected. An in depth view of the new Rex shows the extent to which change has been possible in one human being. Combined with other evidence of shifting paradigms drawn from a cross section of therapeutic practice the authors connect the clinical data with their own developed philosophy on the subject of human behavior and the ability to change with the assistance of a therapist guide to effectuate and sustain such change. **The Army Lawyer**

, 2013-12 **Understanding PISA's Attractiveness** Florian Waldow, Gita Steiner-Khamsi, 2019-05-02 Understanding PISA's Attractiveness examines how policy makers and the media interpret the results of PISA league leaders losers and slippers in ways that suit their own reform agendas. As a result a myriad of explanations exist as to why an educational system is high or low performing. The chapters written by leading scholars from Australia Austria Denmark Finland Germany Norway Singapore South Korea Spain Sweden Taiwan the UK and the USA provide a fascinating account of why results from PISA and other international large scale assessments are interpreted and translated differently in the various countries. The analyses in this book bring to light the wide array of idiosyncratic projections into these international tests. In some countries these tests are also used to scandalise one's own educational system and to generate quasi external reform pressure. Compiled by two leading scholars in comparative education Florian Waldow and Gita Steiner Khamsi this book offers a truly global perspective on the uses and abuses of PISA and will be of great interest to students and academics working in educational policy comparative education and political science and those working on large scale data sets. **Linguistic**

Disobedience Yuliya Komska, Michelle Moyd, David Gramling, 2018-07-13 This book asks how we as citizens immigrants activists teachers can counter the abuse of language in our midst. How can we take back the power of language from those who flaunt that power to silence or erase us and our fellows. In search of answers Linguistic Disobedience recalls ages and situations that made critiquing correcting and caring for language essential for survival. From turn of the twentieth century Central Europe to the miseries of the Third Reich from the Movement for Black Lives to the ongoing effort to decolonize African languages the study and practice of linguistic disobedience have been crucial. But what are we to do today when reactionary supremacists and authoritarians are screen testing their own forms of so called disobedience to quash

oppositional social justice movements and their languages Blending lyric essay with cultural criticism historical analysis and applied linguistics *Linguistic Disobedience* offers suggestions for a hopeful pathway forward in violent times **The Delusion of Knowledge Transfer** Susanne Koch, Peter Weingart, 2016-12-13 With the rise of the knowledge for development paradigm expert advice has become a prime instrument of foreign aid At the same time it has been object of repeated criticism the chronic failure of technical assistance a notion under which advice is commonly subsumed has been documented in a host of studies Nonetheless international organisations continue to send advisors promising to increase the effectiveness of expert support if their technocratic recommendations are taken up This book reveals fundamental problems of expert advice in the context of aid that concern issues of power and legitimacy rather than merely flaws of implementation Based on empirical evidence from South Africa and Tanzania the authors show that aid related advisory processes are inevitably obstructed by colliding interests political pressures and hierarchical relations that impede knowledge transfer and mutual learning As a result recipient governments find themselves caught in a perpetual cycle of dependency continuously advised by experts who convey the shifting paradigms and agendas of their respective donor governments For young democracies the persistent presence of external actors is hazardous ultimately it poses a threat to the legitimacy of their governments if their policy making becomes more responsive to foreign demands than to the preferences and needs of their citizens *Re-Enchanting Education and Spiritual Wellbeing* Marian de Souza, Anna Halafoff, 2017-09-14 Education is in a constant state of renewal internationally where it responds to a number of pressing social political and cultural issues Processes of globalization a number of conflicts and acts of terror economic and environmental crises have led to large waves of migration and asylum seekers arriving in countries with the hope of finding safer and more stable places to settle This in turn has led to cultural and religious pluralism being a key characteristic of many societies with corresponding issues of belonging and identity As well for many people there has been a shifting influence of and allegiance away from traditional religious frameworks with the emergence of new religious movements both peaceful and violent and a rise in popularity of spirituality and non religious worldviews which provide alternate frameworks for living healthy and ethical lives In order to prepare today's student for tomorrow's world one which is confronted by a range of risks and crises and which is being shaped by rapidly changing technologies educators and researchers are investigating new ways of equipping students to deal with these challenges and opportunities including the nurturing of spiritual wellbeing This book brings together the voices of many experienced educators to discuss ways to re-enchant education and re-enliven learning programs in response to these 21st century issues in an increasingly global and interconnected world It examines a range of international contexts including secular and religious educational settings and provides an avenue for visionary voices that identify problems and offer solutions to help shape a more promising education system that will prepare children more constructively and beneficially to flourish in their future worlds **The Delusion of Knowledge Transfer** Susanne Koch, Peter

Disentangling Consciencism Martin Odei Ajei,2016-12-06

Kwame Nkrumah is globally recognized as a foremost pan Africanist strategist and statesman He is less widely acknowledged as a philosopher in spite of his considerable philosophical training seminal contribution to African political theory and incisive critique of the ethics of international relations Consciencism has the distinctive status of being the only published book that Nkrumah consciously meant to be a work of his philosophy yet it has failed to attract the focused attention of philosophers The chapters in Disentangling Consciencism Essays on Kwame Nkrumah s Philosophy critically explore the metaphysical ethical and political thought expressed in Consciencism In doing so they broaden our understanding of his philosophical ideas and their relevance for effective African contribution to thought in a contemporary world in which Africa increasingly totters on the margins of international affairs In much of current moral and political thinking there is a tendency to universalize liberal values and neglect non Western philosophical perspectives At the same time global normative thinking is overwhelmingly applied in non Western contexts Writing from across three continents the contributors to this volume establish greater intellectual connection among African Asian and Western academics and their chapters offer explicit perspectives on the value of Nkrumah s philosophy and on the conceptual basis of early post colonial public policy options in Africa A valuable appendix provides the text of speeches delivered at the 1964 launch of Consciencism With insights into numerous dimensions of Nkrumah s philosophy this volume will be of particular interest to students and scholars of philosophy especially of non Western metaphysical moral and political thought and to anyone working in the history of African political theory

Endogenous Development Chiku Malunga,Susan Holcombe,2017-10-02

Western ideas worldviews actors tools models and frameworks have long dominated development theory and practice in Africa The resulting development interventions are too rarely locally rooted locally driven or resonant with local context At the same

time theories and practices from developing countries rarely travel to the Western agencies dominating development undermining the possibility of a beneficial synergy that could be obtained from the best of both worlds There are many reasons why the experiences of locally driven development are not communicated back to global development actors including but not limited to the marginal role of Southern voices in global forums This volume gives a platform to authentic African voices and non African collaborators to explore what endogenous development means how it can be implemented and how an endogenous development approach can shape local national and global policies This book was originally published as a special issue of *Development in Practice* Self-confidence and Baseball Performance Thomas Robert George,1993
