

Stage 1- Identify Desired Results

Established Goals:

Common Core Standards

- Read and comprehend complex literary and informational texts independently and proficiently.
- 1. Read closely to determine what the text says explicitly and to make logical inferences from it;
- 4. Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.
- 6. Assess how point of view or purpose shapes the content and style of a text.
- 8. Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.
- 9. Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.

What essential questions will be considered?

- How are my friends and family connected to me?
 - What makes a good friend?
 - What do friends share together?
 - How is my family a part of who I am?
 - What do families share together?

What understandings are desired?

Students will understand that...

- Friends and family are part of our lives, community, and identity.
- Each letter makes a sound
- Using context clues, picture clues and classification can help to understand vocabulary
- Determining important information, making inferences and comparing and contrasting can help to comprehend text

What key knowledge and skills will students acquire as a result of this unit?

Students will know...

- Key terms—different, problems, connected, members, grin
- The characteristics of friends and families
- How to use comprehension strategies and skills
- How to spell short vowel words

Students will be able to...

- Make text to text, text to self and text to world connections in relation to friends and family
- Read using different comprehension skills and strategies
- Use vocabulary in reading and daily talk
- Use short vowel words in daily writing and spelling

Stage 2: Determine Acceptable Evidence

What Evidence will show that students understand?

Performance Tasks:

Friend Picture Book--Students will create a picture book answering the question "What are the different ways friends help you?" They will brainstorm ideas in a small group setting and share their final projects with the whole group.

Family and Friends Collage- Students will work in a small group to cut pages from magazines and newspapers to create a collage of friends and families. Students will share their final project with the whole group.

J. Brahier, 2020-03-09 Teaching Secondary and Middle School Mathematics combines the latest developments in research technology and standards with a vibrant writing style to help teachers prepare for the excitement and challenges of teaching secondary and middle school mathematics. The book explores the mathematics teaching profession by examining the processes of planning teaching and assessing student progress through practical examples and recommendations. Beginning with an examination of what it means to teach and learn mathematics, the reader is led through the essential components of teaching, concluding with an examination of how teachers continue with professional development throughout their careers. Hundreds of citations are used to support the ideas presented in the text, and specific websites and other resources are presented for future study by the reader. Classroom scenarios are presented to engage the reader in thinking through specific challenges that are common in mathematics classrooms. The sixth edition has been updated and expanded with particular emphasis on the latest technology resources and standards. The reader is introduced to the ways that students think and how to best meet their needs through planning that involves attention to differentiation as well as how to manage a classroom for success. Features include: The entire text has been reorganized so that assessment takes a more central role in planning and teaching. Unit 3 of 5 now addresses the use of summative and formative assessments to inform classroom teaching practices. A new feature, Links and Resources, has been added to each of the 13 chapters. While the book includes a substantial listing of citations and resources, after the chapters, five strongly recommended and practical resources are spotlighted at the end of each chapter as an easy reference to some of the most important materials on the topic. Approximately 150 new citations have either replaced or been added to the text to reflect the latest in research materials and resources that support the teaching of mathematics. A Quick Reference Guide has been added to the front of the book to assist the reader in identifying the most useful chapter features by topic. A significant revision to Chapter 13 now includes discussions of common teaching assessments used for field experiences and licensure as well as a discussion of practical suggestions for success in methods and student teaching experiences. Chapter 9 on the practical use of classroom technology has been revised to reflect the latest tools available to classroom teachers, including apps that can be run on handheld personal devices. An updated Instructor's Manual features a test bank, sample classroom activities, Powerpoint slides, chapter summaries, and learning outcomes for each chapter and can be accessed by instructors online at www.routledge.com/9780367146511. **Common Core Curriculum Maps in English Language Arts** Great Minds, 2011-10-13 The first books to present specific guidance for teaching the Common Core State Standards.
