Transnational Social Work Practice:

Transnational Social Work Bartley, Allen, Beddoe, Liz, 2018-02-07 An international comparison of labour markets migrant professionals and immigration policies and their interaction in relation to social work Transnational Social Work Practice

Nalini Junko Negi, Rich Furman, 2010-09-29 A growing number of people immigrants refugees asylum seekers displaced individuals and families lead lives that transcend national boundaries Often because of economic pressures these individuals continually move through places countries and cultures becoming exposed to unique risk and protective factors Though migration itself has existed for centuries the availability of fast and cheap transportation as well as today's sophisticated technologies and electronic communications have allowed transmigrants to develop transnational identities and relationships as well as engage in transnational activities Yet despite this new reality social work has yet to establish the parameters of a transnational social work practice In one of the first volumes to address social work practice with this emergent and often marginalized population practitioners and scholars specializing in transnational issues develop a framework for transnational social work practice They begin with the historical and environmental context of transnational practice and explore the psychosocial economic environmental and political factors that affect at risk and vulnerable transnational groups They then detail practical strategies supplemented with case examples for working with transnational populations utilizing this population's existing strengths They conclude with recommendations for incorporating transnational social work into the curriculum Transnational Social Work and Social Welfare Beatrix Schwarzer, Ursula Kämmerer-Rütten, Alexandra Schleyer-Lindenmann, Yafang Wang, 2016-08-05 The underlying frame of social work is the nation state and it is from within the state that welfare strategies and social policies are devised and implemented However post colonialism globalisation migration and the associated implications for human rights social justice and social welfare policies contest the idea of a clearly defined space for social work and present new challenges for researchers and practitioners *Transnational Social Work and Social Welfare* argues for the increased importance of the transnational perspective in social work theory and practice The book challenges the idea of the nation state as a given entity and argues that globalization and an increasing number of people crossing borders must have an impact on the theories and strategies of social work The international contributors are critical of a restricted focus on a geographically defined space and the impact on work with clients With cases covering China France India UK Germany Malaysia Israel Turkey the book highlights the challenges as well as the opportunities this new perspective can open up for theories and strategies in social work It will be of interest to students researchers and social workers interested in migration social care poverty and cultural competency in health and social care Global social work

Carolyn Noble,, Helle Strauss, Brian Littlechild, 2014-06-30 *Global social work crossing borders blurring boundaries* is a collection of ideas debates and reflections on key issues concerning social work as a global profession such as its theory its curricula its practice its professional identity its concern with human rights and social activism and its future directions
