**Biblical Hermeneutics in the Metamodern Mood** Seán M. W. McGuire, 2024-07-23. Why do contemporary Christians seem to routinely talk past one another amid contentious theological debates? In this illuminating study, Sean M. W. McGuire argues that interpreters' lack of self-critical reflection on the process of interpretation and compounding cultural factors are problematizing interpretive practice. Thus, to work through difficult topics, Christians need to develop the ability to reflect on the complexity informing how they interpret Scripture and how they see others interpreting Scripture so that they can coherently and constructively discuss their interpretations with others. Grounding the study in the discipline of practical theology, McGuire utilizes the cultural theory of metamodernism and the hermeneutics of Hans Georg Gadamer (1900–2002) together with a proposed revision of the Wesleyan Quadrilateral to develop a paradigm for observing and describing differences in biblical interpretive practice. Using current debates regarding sexuality as an illustrative example, the project reveals the complexity underlying contemporary interpretive practice, showing that amid this complexity, the prioritization or lack thereof of theological reflection sources prompts certain interpretive conclusions. Perceiving the multivalent nature of interpretation, readers will be equipped to think carefully and critically about how they come to their biblical interpretive conclusions and how those conclusions inform transformed living in Christ.

*Qualitative Analysis Using NVivo* Nicholas H. Woolf, Christina Silver, 2017-09-20. Software is cut and dried: every button you press has a predictable effect, but qualitative analysis is open-ended and unfolds in unpredictable ways. This contradiction is best resolved by separating analytic strategies (what you plan to do) from software tactics (how you plan to do it). Expert NVivo users have unconsciously learned to do this. The Five Level QDA method unpacks the process so that you can learn it consciously and efficiently. The first part of the book explains how the contradiction between analytic strategies and software tactics is reconciled by translating between them. The second part provides both an in-depth description of how NVivo works and comprehensive instruction in the five steps of translation. These steps are illustrated with examples from a variety of research projects. The third part contains real-world qualitative research projects from a variety of disciplines, methodologies, and kinds of qualitative analysis, all illustrated in NVivo using the Five Level QDA method. The book is accompanied by three sets of video demonstrations on the companion website. The book and accompanying videos illustrate the Windows version of NVivo. As there are some differences in screen and interface design between the Mac and Windows versions, please watch the video 'The NVivo Mac Interface' in the Component Orientation series of videos available on the companion website. The Five Level QDA method is based on the

authors combined 40 years of experience teaching NVivo and other software packages used as platforms for conducting qualitative analysis After many years observing their students challenges they developed the Five Level QDA method to describe the process that long time NVivo experts unconsciously adopt The Five Level QDA method is independent of software program or methodology and the principles apply to any type of qualitative project Please see the following URL to access the accompanying materials for this book <https://www.qdaservices.co.uk/five-level-qda> *Analyzing Qualitative Data* Graham R Gibbs,2018-09-03 This book tackles the challenges of how to make sense of qualitative data It offers students and researchers a hands on guide to the practicalities of coding comparing data and using computer assisted qualitative data analysis Lastly Gibbs shows you how to bring it all together so you can see the steps of qualitative analysis understand the central place of coding ensure analytic quality and write effectively to present your results **Analyzing and Interpreting Qualitative Research** Charles Vanover,Paul Mihas,Johnny Saldana,2021-04-08 Drawing on the expertise of major names in the field this text provides comprehensive coverage of the key methods for analyzing interpreting and writing up qualitative research in a single volume *Islamic Wealth Taxation and Financing Public Health* Lyla Latif,2023-11-25 *Islamic Wealth Taxation and Financing Public Health* is an eye opening and thought provoking book that boldly explores new possibilities for funding public health initiatives in countries where Islam isn't the predominant religion In this case Kenya serves as the focal point Written by a Pan African Muslim woman this book is a must read for anyone curious about innovative ways to improve public health without overburdening taxpayers The author delves into the concept of zakat an Islamic wealth tax and investigates how it could be used as a source of revenue to boost public health in non Islamic states like Kenya By shedding light on the inner workings of the Kenyan legal system the book highlights the importance of understanding local power dynamics cultural and religious beliefs and political structures when examining legal issues It's a fascinating look at how different legal frameworks can come together to tackle complex challenges which brings together insights from human rights law Islamic law and constitutional law showcasing the potential for interdisciplinary collaboration in solving real world problems One of the reasons this book is so timely and important is its alignment with global development goals such as the United Nations Sustainable Development Goals SDGs the African Union Agenda 2063 and National Development Plans These initiatives all emphasise the need for countries to find new local funding sources without overtaxing their citizens Exploring zakat as a potential solution in Kenya is particularly interesting given the country's influence in East Africa and the potential impact of such a development in the region *Handbook of Research on Writing Instruction Practices for Equitable and Effective Teaching* Hodges, Tracey S.,2022-05-27 Writing is a critical component for teaching children about advocacy and empowering student voice as well as an essential tool for learning in many disciplines Yet writing instruction in schools often focuses on traditional methods such as the composition of five paragraph essays or the adherence to proper grammatical conventions While these are two components of writing instruction and preparation in education they only provide a small
