[Teaching with the Common Core Standards for English Language Arts, PreK-2](#) Lesley Mandel Morrow, Timothy Shanahan, Karen K. Wixson, 2012-11-01 The Common Core State Standards CCSS are the first academic standards to be independently adopted by almost every state in the country. The purpose and intent of the Common Core standards for English Language Arts ELA as well as Literacy in History Social Studies and Science Education are the focus of this book. Each of the chapters addresses one of the major English Language Arts domains: literature, informational texts, foundational skills, writing, speaking and listening, language, technology, and assessment. The objective of the chapters is twofold: to provide a theoretical background and detailed explanation of each of the CCSS ELA standards as well as practical suggestions, classroom vignettes, models, instructional resources, and unit ideas to implement the standards.

RTI in the Common Core Classroom Sharon Vaughn, Philip Capin, Garrett J. Roberts, Melodee A. Walker, 2016 Schools and teachers have struggled to integrate Common Core State Standards CCSS into their local Response to Intervention RTI systems. This book offers an adaptable framework and practical tips to assist educational professionals charged with making this connection in their schools, districts, and classrooms for English language arts. Based on years of experience, we know that students perform best when provided with research-based instruction, frequent progress monitoring, and timely and targeted interventions. Focusing on what the research tells us about how children learn, this highly practical guide can serve as the core of language arts instruction. RTI in the Common Core Classroom will guide today's classroom teachers, reading coaches, and administrators in their efforts to support all students in meeting literacy standards, including individuals with mild to moderate disabilities. Book Features: A research-based innovative approach for implementing RTI and the Common Core curriculum; Effective teaching and assessment practices in foundational reading skills, reading comprehension, and writing; User-friendly design including research highlight boxes, recommended reading lists, questions for professional learning communities, prompts, sample assignments, student writing excerpts, a Q & A section, and a trait weighting table. Sharon Vaughn is the perfect classroom expert to help teachers mesh the requirements of any RTI program with high standards, whether they be CCSS, state, or local. Susan B. Neuman, New York University, Teaching to the unique abilities of an increasingly diverse group of students is a persistent challenge in public education.
