MY TREE OF LIFE

The tree of life symbolizes your life and elements from your past, present and future. Use this worksheet to understand a lot more about yourself and who you want to be in the future.

Leaves: significant people
Those who are special and
important to you

Fruits and flowers: life's
gifts, gifts given and
received. Lessons you want
to learn with others
or left to you

Branches: hopes
and dreams.
What direction
do you hope your
life will take?
What kind of
person do you
want to be?

Stems: life's
challenges.
What problems
are you facing?

Ground: the present. Where
are you now? How do you
spend most of your days?

Trunk: skills and strengths.
What are you good at?
What are your values?

Roots: where you come from.
Your origin, culture, religion,
city, country

MY TREE OF LIFE STORY

My tree of life is a symbol of my life and the people who have shaped it. It is a tree that grows from the ground and reaches up to the sky. The roots represent my past, the trunk represents my present, and the branches represent my future. The leaves represent the people who have shaped my life, and the fruits represent the gifts I have received. I want to learn from others and be a good person in the future.

Tree Of Life Narrative Therapy Exercise:

Narrative Therapy and Older People Rosslyn Offord, Polly Kaiser, Elizabeth Field, 2025-10-21 Healthcare for older people tends to focus on physical limitations and cognitive decline and the person's own perspective and strengths are often overlooked Narrative therapy centres a person as the expert in their own story and is particularly effective when combined with an older person's wealth of life experience It highlights the way their views have been shaped by their cultural and personal contexts which allows better understanding and communication and improves people's lives Written by experienced psychologists group facilitators and service users this guide explores how to use narrative therapy with older people including those with dementia or age related conditions From Tree of Life facilitation to ways of approaching loss and trauma each chapter offers advice and proven strategies for practice for individuals staff teams groups and communities This book helps you to adopt a person centred approach to narrative therapy that helps service users to lead the life they want to live Where ageism and stigma often overwhelm older people and those who work with them narrative therapy brings the focus back onto the person themselves in the context of their history their family and their community who are they and what do they have to say Pastoral Care Dr. Karen D. Scheib, 2016-02-16 Christian pastoral care is a narrative ecclesial theological practice NET As a narrative practice pastoral care attends to the inseparable interconnection between our own lifestories others stories the larger cultural stories and God's story As a ministry of the church pastoral care is an ecclesial practice that derives its motivation purpose and identity from the larger mission of the church to bear witness to and embody God's mission of love that extends beyond the church for the transformation of the world As a theological practice pastoral care is grounded in God's love story God's profound love for humankind heals our brokenness when human love fails and invites us into an ongoing process of growth in love of God self and neighbor Intended for those who provide care with and on behalf of religious communities author Karen Scheib focuses on listening and restorying practices occurring in the context and setting of congregations By coauthoring narratives that promote healing and growth in love pastoral caregivers become cocreators and companions who help others revise and construct life stories reshaped by the grace of God What Karen Scheib has done in this book is to reposition pastoral care as a theological activity performed in the context of the church She draws deeply upon her Wesleyan theological heritage upon an understanding of life in its fullness as growth in love and grace and upon a communion ecclesiology undergirded by a communal understanding of the Trinitarian life of God Thus grounded she envisions pastoral care first as a rhythm of the life of the whole church and secondarily as a work of trained pastors In her vision pastoral care is rescued from a narrow understanding of it as exceptional acts of intervention performed only in moments of dire crisis Instead it becomes a daily practice of pastoral care an attending in love to the stories of others and a listening for ways God is already present in a life story Solidly theological grounded in the life of the church and eminently teachable Karen Scheib has given us a great gift in this book from the Foreword Thomas G Long Bandy Professor of

Preaching Emeritus Candler School of Theology Emory University Atlanta GA In a wonderfully engaging reflective and useful way Karen Scheib captures something absolutely essential to pastoral care and yet often overlooked the utter centrality of storytelling listening the power of stories to heal and their vital connection to bigger stories told within religious communities This book is a real milestone reclaiming the importance of narrative knowing and grounding care not only in community but also within a comprehensive theological framework Bonnie J Miller McLemore E Rhodes and Leona B Carpenter Professor of Religion Psychology and Culture The Divinity School and Graduate Department of Religion Vanderbilt University Divinity School Nashville TN Implementing narrative personality and therapy theories and anchored in ecclesiology and Wesleyan theology NET Karen Scheib s book advances a long awaited and holistic approach to pastoral care Her NET approach presents the embodiment of pastoral care by emphasizing both narrative and paradigmatic knowing proposes the subjectivity of our stories in pastoral care by pointing out the interchangeability between us and our stories as subject and object and underscores the dynamic process of pastoral care through the interconnection of the storyteller listener and context Scheib s image of story companion contributes to the field as a new paradigm of pastoral care and promises to be a significant resource in generating hope and growth in love for both pastoral caregiver and receiver Angella Son Associate Professor Drew University Madison NJ Pastoral theologian Scheib describes a narrative ecclesial and theological approach for listening to people s life stories in such a way as to engender spiritual formation and growth in love Scheib clarifies the connections between caring conversations and Christian theology Clear and accessible prose as well as helpful exercises and discussion starters make this a fine teaching text The Christian Century Sept 29 2016 *The Tree Climbing Cure* Andy Brown,2022-12-15 Our relationship with trees is a lengthy complex one Since we first walked the earth we have at various times worshiped them felled them and even talked to them For many of us though our first memories of interacting with trees will be of climbing them Exploring how tree climbers have been represented in literature and art in Europe and North America over the ages The Tree Climbing Cure unpacks the curative value of tree climbing examining when and why tree climbers climb and what tree climbing can do for and say about the climber s mental health and wellbeing Bringing together research into poetry novels and paintings with the science of wellbeing and mental health and engaging with myth folklore psychology and storytelling Tree Climber also examines the close relationship between tree climbing and imagination and questions some longstanding problematic gendered injunctions about women climbing trees Discussing among others the literary works of Margaret Atwood Charlotte Bronte Geoffrey Chaucer Angela Carter Kiran Desai and J R R Tolkien as well as work by artists such as Peter Doig Paula Rego and Goya this book stands out as an almost encyclopedic examination of cultural representations of this quirky and ultimately restorative pastime *Working with Relational and Developmental Trauma in Children and Adolescents* Karen Treisman,2016-10-04 Working with Relational and Developmental Trauma in Children and Adolescents focuses on the multi layered complex and dynamic area of trauma loss and disrupted attachment

on babies children adolescents and the systems around them The book explores the impact of relational and developmental trauma and toxic stress on children s bodies brains relationships behaviours cognitions and emotions The book draws on a range of theoretical perspectives through reflective exercises rich case studies practical applications and therapeutic strategies With chapters on wider organisational and systemic dynamics strength based practices and the intergenerational transmission of relational trauma Karen Treisman provides a holistic view of the pervasive nature and impact of working with trauma Working with Relational and Developmental Trauma in Children and Adolescents will be of interest to professionals working with children and families in the community in patient school residential and court based settings including clinical psychologists psychiatrists social workers teachers and students

Trauma and Expressive Arts Therapy Cathy A. Malchiodi, 2020-03-27 Psychological trauma can be a life changing experience that affects multiple facets of health and well being The nature of trauma is to impact the mind and body in unpredictable and multidimensional ways It can be a highly subjective that is difficult or even impossible to explain with words It also can impact the body in highly individualized ways and result in complex symptoms that affect memory social engagement and quality of life While many people overcome trauma with resilience and without long term effects many do not Trauma's impact often requires approaches that address the sensory based experiences many survivors report The expressive arts therapy the purposeful application of art music dance movement dramatic enactment creative writing and imaginative play are largely non verbal ways of self expression of feelings and perceptions More importantly they are action oriented and tap implicit embodied experiences of trauma that can defy expression through verbal therapy or logic Based on current evidence based and emerging brain body practices there are eight key reasons for including expressive arts in trauma intervention covered in this book

- 1 letting the senses tell the story
- 2 self soothing mind and body
- 3 engaging the body
- 4 enhancing nonverbal communication
- 5 recovering self efficacy
- 6

rescripting the trauma story 7 making meaning and 8 restoring aliveness **The Palgrave Handbook of Sociocultural Perspectives on Global Mental Health** Ross G. White, Sumeet Jain, David M.R.
