later Chazan locates the cause of the decline primarily in the creation of new negative images of Jews He shows how these damaging twelfth century stereotypes developed and goes on to chart the powerful lasting role of the new anti Jewish imagery in the historical development of antisemitism This coupling of the twelfth century s notable intellectual bequests to the growth of Western civilization with its legacy of virulent anti Jewish motifs offers an important new key to understanding modern antisemitism The twelfth century in Europe hailed by historians as a time of intellectual and spiritual vitality had a dark side As Robert Chazan points out the marginalization of minorities emerged during the twelfth century renaissance as part of a growing pattern

Lee, 2016-04-22 In the first collection devoted to mentoring relationships in British literature and culture the editor and contributors offer a fresh lens through which to observe familiar and lesser known authors and texts Employing a variety of critical and methodological approaches which reflect the diversity of the mentoring experiences under consideration the collection highlights in particular the importance of mentoring in expanding print culture Topics include John Wilmot the Earl of Rochester's relationships to a range of role models John Dryden's mentoring of women writers Alexander Pope's problematic attempts at mentoring the vexed nature of Jonathan Swift's cross gender and cross class mentoring relationships Samuel Richardson's largely unsuccessful efforts to influence Urania Hill Johnson and an examination of Elizabeth Carter and Samuel Johnson's as co mentors of one another's work Taken together the essays further the case for mentoring as a globally operative critical concept not only in the eighteenth century but in other literary periods as well Hersilia's Sisters Norman Bryson, 2023-07-25 Political and cultural history and the arts combine in this engaging account of 1790s France In 1799 when the French artist Jacques Louis David 1748 1825 exhibited his Intervention of the Sabines a history painting featuring the ancient heroine Hersilia he added portraits of two contemporary women on either side of her Henriette de Verninac daughter of Charles François Delacroix minister of foreign affairs and Juliette Rcamier a

Gutenberg's Europe Frédéric Barbier, 2017-05-23 Major transformations in society are always accompanied by parallel transformations in systems of social communication what we call the media In this book historian Frédéric Barbier provides an important new economic political and social analysis of the first great media revolution in the West Gutenbergs invention of the printing press in the mid fifteenth century In great detail and with a wealth of historical evidence Barbier charts the developments in manuscript culture in the twelfth and thirteenth centuries and shows how the steadily increasing need for written documents initiated the processes of change which culminated with Gutenberg The fifteenth century is presented as the age of start ups when investment and research into technologies that were new at the time including the printing press flourished Tracing the developments through the sixteenth century Barbier analyses the principal features of this first media revolution the growth of technology the organization of the modern literary sector the development of surveillance and censorship and the invention of the process of mediatization He offers a rich variety of examples from cities all over Europe as well as looking at the evolution of print media in China and Korea This insightful re interpretation of the Gutenberg revolution also looks beyond the specific historical context to draw connections between the advent of print in the Rhine Valley paper valley and our own modern digital revolution It will be of great interest to students and scholars of early modern history of literature and the media and will appeal to anyone interested in what remains one of

the greatest cultural revolutions of all time *Disciplined Exuberance* Linda Elaine Neagley, 2010-11-01 **Trübner's American and Oriental literary record** Trübner and Co, 1865 *The Pleasures of the Text* Elizabeth Locey, 2002-01-15

Why was Violette Leduc's 1954 novel *Thérèse et Isabelle* not published in its entirety until November 2000? Under threat of scandal and obscenity charges, French publisher Gallimard withheld the novel, but Leduc continued to write of her life as a woman writer in wartime Paris, frankly depicting her own and imagined lesbian experiences. Mentored by Simone de Beauvoir and a contemporary of French twentieth-century luminaries Sartre, Camus, Genet, and Cocteau, Leduc is however known best as France's great unknown writer. In *The Pleasures of the Text*, Elizabeth Locey restores Leduc to her rightful place in the canon, bringing to light her singular and important contributions to contemporary literary theory. Locey reads Leduc's works from the perspective of reader seduction, which erodes the divide between body and text. Situating Leduc within a continuum with Emma Bovary and Roland Barthes at its extremes, Locey investigates Leduc's use of the erotic touch, look, and voice to seduce her readers. More than an accessible introduction to an overlooked writer, *The Pleasures of the Text* confronts and challenges the philosophical debate between pornography and erotica and pins down some of the often slippery ways pleasure is mapped onto the body of the reader. *Trübner's American and Oriental Literary Record* Nicolas Trübner, 1865
