TOPIC-PRINCIPAL PROFESSIONAL DEVELOPMENT

PROBLEM STATEMENT

Principal leadership is correlated with student achievement, and there are significant links between specific principal behaviors and student achievement (Peters et al., 2015; Tang et al., 2018). Researchers posit that "effective leadership means more than knowing what to do—it's knowing when, how, and why to do it" (Peters et al., 2015, p. 2). However, there is limited research on the principal, as a leader, specifically principal professional development, and its impact on principal leader effectiveness (Davidson, 2019).
Researchers can identify the types of professional development experiences that are most likely to build principals' capacity to be successful leaders, recognize relative needs and design student achievement may be increased.

PURPOSE OF THE STUDY

The purpose of this study is to explore the perceptions of principals regarding their preparedness to lead school improvement efforts. The study will explore the following research questions:
1. How do principals perceive their preparedness to lead school improvement efforts?
2. What factors influence principals' perceptions of their preparedness to lead school improvement efforts?
3. How do principals perceive their preparedness to lead school improvement efforts?
