Magruder's American Government Guided Reading and Review Workbook Student Edition 2003c William A. McClenaghan, 2002-05-15 High School Hailed as a stellar educational resource for nearly a century Magruder's American Government is updated annually to meet the changing needs of today's high school students and teachers The program's engaging narrative is enhanced with numerous primary sources political cartoons charts graphs and photos making the structure and principals of government accessible and motivating to students of all abilities **Professionals or Part-timers?** Peter van Onselen, 2015-09-01 While the minor party and independent senators might attract media attention the overwhelming majority of Australia's upper house members are affiliated with the major political parties These senators are highly partisan they are dependent on the party for re-election and play a potentially vital role in assisting their parties to secure the maximum number of House of Representative seats acting as shock troops in marginal seat campaigning How does this impact the way these senators go about their business How do they serve their party in the pursuit of lower house seats the result of which determines who forms government Professionals or Part Timers examines the electoral professionalism of major party senators as well as how they deal with the sometimes competing interests of factionalism and personal ambition *Organizing Political Parties* Susan E. Scarrow, Paul D. Webb, Thomas Poguntke, 2017-06-16 Political party organizations play large roles in democracies yet their organizations differ widely and their statutes change much more frequently than constitutions or electoral laws How do these differences and these frequent changes affect the operation of democracy This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies Using a unique new data collection the book's chapters test propositions about the reasons for variation and similarities across party organizations They find more evidence of within country similarity than of cross national patterns based on party ideology After exploring parties organizational differences the remaining chapters investigate the impact of these differences The volume considers a wide range of theories about how party organization may affect political life including the impact of party rules on the selection of female candidates the links between party decision processes and the stability of party programmes the connection between party finance sources and public trust in political parties and whether the strength of parties extra parliamentary organization affects the behaviour of their elected legislators Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel
