

# SELF-EVALUATION REPORT

## COMPOSITION OF THE SELF-EVALUATION GROUP

The scope of the work of the self-evaluation group consisted of data-gathering, analysis and writing of the report. In the first part of self evaluation, data according to the criteria established in the methodology of study programme assessment was gathered and systematised, opinion of external stakeholders and teaching staff surveyed. In the final stage of evaluation, responsibility of the work group members consisted chiefly of systematising the analysis of programme, drafting and communicating strengths, weaknesses and measures of expected improvement of the area. Valdas Jaskūnas was responsible for the evaluation of study programme aims and learning outcomes as well as curriculum design, Marija Tarasova for the evaluation area related to teaching staff, Kristina Garalytė for the evaluation of facilities and learning resources, Dalia Švambarytė and Loreta Poškaitė for the evaluation of study process and students' performance assessment, Audrius Beinorius for the evaluation of programme management. The students' representative at the group was responsible for communicating the results of the work group for the students and analysing their feedback.

*Behavioral, Social, and Emotional Assessment of Children and Adolescents* Sara A. Whitcomb, 2013-05-07 Generally recognized as the standard work in its field Behavioral Social and

Emotional Assessment of Children and Adolescents provides a comprehensive foundation and guide for conducting conceptually sound culturally responsive and ecologically oriented assessments of student social and emotional behavior. It is aimed at graduate students, practitioners, and researchers in the fields of school psychology, child clinical psychology, and special education, but will also be of interest to those in related disciplines such as counseling psychology, child psychiatry, and social work. Keeping intact many of the same premises and pedagogy of the previous editions, this revised and updated fourth edition has been reorganized to emphasize culturally responsive reflective practice with added content including updated assessment tools and strategies to be used within a Response to Intervention (RtI) framework. In addition to updating all chapters to reflect current research and data, authors Sara Whitcomb and Kenneth Merrell move away from a more narrow view of social skills to reflect an expanded notion of strengths-based assessment, which includes such traits as coping skills, resilience, problem-solving ability, emotional knowledge, and empathy. Throughout, they strive to increase professional standards in the practice of psychological and educational assessment of children and adolescents, providing a solid evidence-based foundation for assessment.
