Numicon Telling Time

Jean Gross

Numicon Telling Time:

Maths 5-11 Caroline Clissold, 2019-10-23 Focusing on good progression from Reception to Year 6 Maths 5 11 provides a clear and concise presentation of the fundamental knowledge that all primary mathematics teachers need. It provides readers with practical knowledge for the planning and assessment necessary to employ the theories expressed in the book. Ranging from number sense and place value to looking in depth at the various aspects of fractions and mathematical reasoning, this book explores mathematical connections inside and outside of the curriculum, the relation of mathematics to other primary subjects such as science, geography and art, mathematics teaching practices from high performing jurisdictions across the world, the progression of learning from primary school to secondary school, the big ideas in mathematics and activities that provide strategies for children to use responsively and creatively. Helping primary teachers and mathematics coordinators improve and enhance their mathematical subject knowledge and pedagogy, Maths 5 11 will re-instil an excitement about teaching mathematics among its readers.

More Trouble with Maths Steve Chinn, 2016-07-21 More Trouble with Maths acknowledges that there are many reasons why children and adults are unable to function mathematically. Difficulties include problems with rote learning, basic facts and procedures, debilitating anxiety, poor working and short term memories, and mathematics vocabulary. Central to this new edition is a range of standardised tests and diagnostic activities, including a 15 minute test of basic mathematics, a thinking style test, tests of basic fact retrieval and maths anxiety. Guiding the reader in the interpretation of tests, this new edition shows how identifying the barriers to learning is the first step in a programme of intervention. Written in an engaging and user friendly style, Steve Chinn draws on his extensive experience and expertise to show how to consider and appraise the many factors relating to mathematical learning difficulties, explain how these factors can be investigated, explore their impact on learning mathematics, emphasising the need for a clinical approach when assessing individuals. This book shows how diagnosis and assessment can become integrated into everyday teaching. This highly practical and relevant resource is a crucial resource for anyone who wants to accurately and effectively identify the depth and nature of mathematical learning difficulties and dyscalculia.

Guide to Dyspraxia and Developmental Coordination Disorders Amanda Kirby, Sharon Drew, 2013-04-15 Built upon the good practice for which the Dyscovery Centre has become so well known, this book takes a broader view of the difficulties that those with additional needs face. It considers whether this is a health, educational or social difficulty and what the wider implications are for the individual and how they manage at home and in the community. The authors look at what happens, what can be done to help and what changes occur as the child becomes an adolescent and eventually an adult. Teachers, SENCOs, teaching assistants, occupational therapists, physiotherapists, speech and language therapists and parents of children with dyspraxia or developmental coordination disorders should find this book stimulates their thinking and helps them in their work.

Learning Disabilities Sandro Misciagna, 2022-03-30 Learning disabilities are a heterogeneous group of disorders.

characterized by failure to acquire retrieve and use information competently These disorders have a multifactorial aetiology and are most common and severe in children especially when comorbid with other chronic health conditions This book provides current and comprehensive information about learning disorders including information on neurobiology assessment clinical features and treatment Chapters cover such topics as historical research and hypotheses of learning disorders neuropsychological assessment and counselling characteristics of specific disorders such as autism and ADHD evidence based treatment strategies and assistive technologies and much more

Special Educational Needs and Disabilities in Schools Janice Wearmouth, 2021-08-12 Special Educational Needs and Disabilities in Schools is an essential resource designed to support you during and beyond your teaching training to understand assess and address special and or additional educational needs and disabilities SEND In addition to the expected updates throughout to the latest research and legislation new developments include expanded discussions of key topics such as bullying social emotional and mental health detailed coverage of planning for transition across the age ranges suggestions of hardware and software for day to day use and use in exam conditions increased focus on the importance of positive and supportive relationships Drawing on her wealth of experience close contact with schools families and students as well as relevant research Janice Wearmouth explores a wide range of approaches to assess and address the most common forms of SEND These include difficulties in communication and cognition behavioural concerns related to social emotional and mental health sensory and or physical needs and literacy and numeracy difficulties The author uses key questions to introduce each chapter and reflective activities to encourage you to consider your own practice to ensure that all young people reach their potential She illustrates policy and provision for SEND in a highly authentic and engaging way with a range of exemplars vignettes and personal accounts of young people s and families experiences within the field and provides a wealth of additional resources on the companion website

Children Beyond Labels Rhian Spence, 2018-10-10 Children Beyond Labels is an accessible guide to understanding standardised assessment and managing high incidence additional learning needs in the primary school It offers jargon free insight into the results of formal assessments which are often used within professional reports and cuts to the core of how primary education professionals and parents can identify understand and best meet children s needs Offering a range of practical and manageable strategies the book provides clear explanations of commonly used labels which reflect three of the four areas described within the SEND Code of Practice 2015 Cognition and Learning Communication and Interaction and Social Emotional and Mental Health These categories are illustrated by 18 detailed case studies of children from the author s own case work each with their unique profiles of strengths weaknesses and traits that can sometimes transcend category boundaries Examples of these traits include Dyslexia Autism Spectrum Disorder Specific Language Impairment Attention Deficit Hyperactivity Disorder Developmental Co ordination Difficulties Anxiety This is an invaluable guide to the range of different types of additional learning or special needs of children who are likely to be found in mainstream primary schools It

will be of interest to primary teachers trainee teachers teaching assistants SENCOs parents and anyone working to support the needs of young children *Supporting Children with Dyslexia* Hull City Council,2016-04-14 Completely revised and updated in light of the new 2014 SEND Code of Practice this second edition of Supporting Children with Dyslexia provides valuable advice and resources for teachers TAs and SENCOs supporting pupils on the dyslexic spectrum This practical resource will help those who are looking for expert guidance and strategies as well as providing a professional development tool which will encourage outstanding practice at all levels Spanning pre school primary and secondary teaching this book covers the key areas to be considered when supporting pupils with dyslexia including how to identify a young person with dyslexia practical strategies for pre school primary and secondary settings useful advice to give to parents and carers of children and young people with dyslexia useful materials for continual professional development Featuring helpful checklists templates and photocopiable resources this book provides guidance and practical strategies for identifying and supporting young people with dyslexia that will be of use to teachers TAs SENCOs and other educational professionals **Maths Learning Difficulties, Dyslexia and Dyscalculia** Steve Chinn,2018-10-18 Written by a world authority on maths difficulties in children this accessible guide provides tried and tested visual strategies and tailored techniques to help teachers and parents support children with SpLDs who need help with maths Drawing on the latest research into areas such as cognition and meta cognition along with the authors decades of teaching experience the book offers insight into how maths learning difficulties including dyslexia dyscalculia and maths anxiety make maths difficult Each chapter looks at foundational areas of maths learning that children may struggle with from early number experiences to basic addition and subtraction times tables measurement and more Essential reading for any teacher learning assistant or parent supporting children with maths **How to Teach Maths** Steve Chinn,2020-11-23 How to Teach Maths challenges everything you thought you knew about how maths is taught in classrooms Award winning author Steve Chinn casts a critical eye over many of the long established methods and beliefs of maths teaching Drawing from decades of classroom experience and research he shows how mathematics teaching across the whole ability range can be radically improved by learning from the successful methods and principles used for the bottom quartile of achievers the outliers Chinn guides readers through re adjusting the presentation of maths to learners considering learners needs first and explains the importance of securing early learning to create a conceptual foundation for later success This highly accessible book uses clear diagrams and examples to support maths teachers through many critical issues including the following The context of maths education today Topics that cause students the most difficulty Effective communication in the mathematics classroom Addressing maths anxiety The perfect resource for maths teachers at all levels this book is especially useful for those wanting to teach the foundations of mathematics in a developmental way to learners of all ages and abilities It has the potential to change the way maths is taught forever **Year One in Action** Anna Ephgrave,2017-03-16 Children are hard wired to learn and they learn best by

being active and autonomous exploring discovering creating and taking risks in other words by playing However formal subject specific lessons and a focus on data targets and unrealistic expectations are causing young children to be bored and stressed and this is stifling their learning Year One in Action reveals the remarkable progress children can make when they are allowed to pursue their own interests ideas and challenges in a superb and enabling environment supported by responsive skilled and empathic staff Demonstrating how a child led approach supports the development of purposeful calm confident and independent children this book offers a unique month by month insight into the workings of a highly successful Year One class It covers all aspects of practice from timetabling adult roles and transitions to the organisation of the classroom and outside area It tracks the events of each month in the year paying close attention to the physical environment and the learning that is taking place Interactions between staff and children are recognised as and exploited as teaching opportunities Throughout the book Anna Ephgrave gives the reasons behind each decision made She also explains what the outcomes have been for the children emphasising that a child led approach with planning in the moment enables rich learning across the curriculum for all children within a meaningful context Key features include over 150 full colour photographs to illustrate practice photocopiable pages of planning sheets record keeping sheets and sample letters to parents examples of individual learning journeys and planning in the moment guidance on what to look for when assessing children s progress advice on risk benefit assessments suggestions for managing transitions and minimising stress The achievements of these children have been remarkable and they have remained the enthusiastic independent happy and unique individuals that they were when they came into Year One Written by a leading consultant teacher this book will inspire teachers to be brave and do what is right for children let them take the lead trust that they want to learn and above all let them play

Big Ideas in Primary Mathematics Robert Newell,2016-11-14 Lightbulb moments for you and your pupils This book explores the big ideas in maths to help trainee teachers confidently teach the curriculum in a way that engages children and focuses on understanding rather than memory for those lightbulb moments Covering the major concepts in simple terms whilst carefully linking to the National Curriculum it shows how they can be used to enable learning and support mathematical mastery A focus on explaining misconceptions and errors will strengthen trainees and teachers own mathematical subject knowledge while also giving them the confidence to deepen their understanding of the children they teach Key topics include Problem solving reasoning and developing fluency in maths Place value and counting systems Measuring money time and weight Geometry and understanding space and shape Fractions and statistics for the primary classroom This is essential reading for anyone studying primary mathematics on initial teacher education courses including undergraduate BEd BA with QTS and postgraduate PGCE PGDE School Direct SCITT routes and also NQTs Robert Newell is a tutor in primary education at the UCL Institute of Education London

How to Recognise and Support Mathematical Mastery in Young Children's Play Di Chilvers,2021-07-12 This book explains how young children develop mathematically in

their earliest years and shows the support and teaching needed by adults to accelerate their progress and attainment helping them master mathematical concepts and skills The practical guidance has been carefully developed over a number of years and is based on research undertaken with primary schools in Sheffield as part of the Talk for Maths Mastery initiative It recognises that children s mathematical development is embedded within child led play and connected to deeper levels of thinking and wider dispositions for learning Maths is happening everywhere at any moment we just need to keep an open mind open eyes and listen Including case studies links to practice and reflective questions the chapters reveal what mastery orientation looks like from the children s perspective in their learning and covers children s serve and return conversational talk mathematical babies and their developmental momentum schematic patterns of thinking mathematical mark making child led play problem solving creative and critical thinking how adults can support children s mathematical talk thinking and mastery This book will help all early years practitioners and teachers working with children throughout the EYFS and KS1 build their understanding knowledge experience and confidence of engaging in early mathematics

Engaging in Mathematics in the Classroom Alf Coles,2015-07-30 What comes first class management or student engagement How can the real world be used to engage learners What is the role of technology in engaging students And is understanding or exam success more engaging In the modern world success in school mathematics can determine life chances It is therefore vital to engage children and young people in learning mathematics Engaging in Mathematics in the Classroom brings together the debates concerning mathematical engagement and draws on first hand experience and key research to promote successful classroom practice It considers what engagement looks like at different ages and the implications of this for the classroom Accessibly written with examples of successful classroom practice activities and projects the book covers Planning and managing engagement in learning Mathematical understandings and meanings Early Primary and the number system Primary Secondary Transition and geometrical thinking Secondary school Adolescence and algebraic activity Post 16 and infinity Learning across the lifespan Written by a leading authority in the field this timely text will be essential reading for all trainee and practising teachers of mathematics

Who's Afraid of AAC? Alison Battye, 2017-08-04 Who's Afraid of AAC is a clear and concise guide to Augmentative and Alternative Communication AAC in the UK and will be an essential resource for all Speech and Language Therapists, educators, parents and carers supporting children with non-verbal communication. This book sets out to demystify AAC by demonstrating that you already have the skills necessary to use AAC successfully. Key features include an overview of the different types of AAC, analysis of the best available approaches, tools to give you the context you need to make specific recommendations and choices, thorough sections on different settings including Home, Early Years, Primary, Secondary and Special Schools so that guidance is relevant to individual needs, numerous practical examples, templates and activities to help you implement AAC in all settings, summaries of recent research and hot topics including eye gaze technology, using AAC in exams and internet safety so that you have the most up-to-date guidance at your fingertips. Created by a Speech and Language Therapist who specialises in AAC training for therapists, educators and individuals with communication needs as well as parents and carers, this is the only book of its kind written for a UK audience. *Primary Mathematics for Trainee Teachers* Marcus Witt, 2014-11-19 With chapter sequencing following the new Curriculum, this book supports trainee Primary school teachers to make use of the opportunities presented in the new National Curriculum for effective and engaging Mathematics teaching. Covering all of the areas of the new Curriculum for primary mathematics and offering insight into effective teaching, this book helps students connect what they need to teach with how it can be taught. Exploring opportunities in the new curriculum for creative and imaginative teaching, it shows readers how to capitalize on opportunities to develop children's reasoning and problem-solving skills. It explores how to make links between mathematics and children's lived experiences to enhance their learning and enables trainees to develop an ability to plan with discernment, making the most of existing thinking and research as well as building confidence in adapting and customizing ideas. Includes the full National Curriculum Programme of Study for Maths, key stages 1 and 2 as a useful reference for trainee teachers. Other books in this series include *Primary English for Trainee Teachers*. Beating Bureaucracy in Special Educational Needs Jean Gross, 2008-03-04 Are you overwhelmed by the amount of paperwork that SEN generates in your school? Would you like to spend more time actually improving the quality of teaching and learning for pupils with SEN or disabilities? If so, this is an essential book for you. Containing practical strategies for reducing the number of individual education plans and review meetings, *Beating Bureaucracy* will help you to use existing systems for target setting, recording and planning personalised systems that are used for all children as part of everyday teaching practices. The book showcases the work of four schools that have successfully developed ways of planning, provision, working with parents and supporting staff development. Ready-to-use proforma in the book are also available online and include a model policy to give to Ofsted to explain why the school does not use IEPs, an information sheet for parents, curriculum planning formats, strategy sheets that can be highlighted and given to class and subject teachers, proformas for commonly used interventions that describe the intervention, its target group, its

entry and exit criteria and monitoring and evaluation arrangements This invaluable resource will help you in the words of one SENCO get your life back Adopting the new and more effective ways of working presented here will reduce the bureaucratic burden on your school whilst at the same time improving the impact of your SEN provision on children s learning and well being
