**Evidence-Based Learning and Teaching** Melissa Barnes, Maria Gindidis, Sivan Phillipson, 2018-05-08 Education has become a political economic and social priority for Australia with the success of schools and teachers being an integral part of the economic and social future of the country. As a result, quality assurance for learning and teaching has become increasingly debated among policy makers and the broader public with a call for more evidence data and standards to ensure that schools and teachers are held accountable for students learning outcomes. In response, this book provides a snapshot of the types of evidence and data relating to learning outcomes that are being collected in our classrooms within Australia. The chapters in this book seek to interrogate current views of learning and teaching beyond what is measured in external assessments that only capture a limited view of student learning outcomes. The chapters explore a range of fundamental topics within education including positive learning environments, student voice and assessment. They explore and articulate the vital knowledge and skills needed for current and future teachers. In addition, these chapters make clear links between teaching, learning and the theories that frame, shape and inform these learning and teaching processes. The research presented in this book provides practical and theoretical insights into learning and teaching in early years, primary, secondary and tertiary education.

**Inspiring Primary Learners** Roger McDonald, Poppy Gibson, 2021-02-25 Inspiring Primary Learners offers trainee and qualified teachers high quality case studies of outstanding practice in contemporary classrooms across the country. Expert authors unravel and reveal the theory and evidence that underpins lessons helping you make connections with your own practice and understand what excellent looks like within each context and how it is achieved. Illustrated throughout with interviews, photos and examples of children's work, it covers a range of primary subjects and key topics including creating displays, outdoor learning and developing a reading for pleasure culture. The voice of the practitioner is evident throughout as teachers share their own experience, difficulties and solutions to ensure that children are inspired by their learning. Written in two parts, the first exemplifies examples of practice for each National Curriculum subject whilst the second focuses on the wider curriculum and explores issues pertinent to the primary classroom, highlighting important discussions on topics such as Reading for pleasure, Writing for pleasure, Creating a dynamic and responsive curriculum, Creating inspiring displays, Outdoor learning, Pedagogy for imagination, Relationships and Sex Education. This key text shows how even within the contested space of education, practitioners can inspire their primary learners through teaching with passion and purpose for the empowerment of the children in their class. For all new teachers, it provides advice and ideas for effective and engaging learning experiences across the curriculum.
