Radiology diagnostic examinations and therapeutic procedures have become a more prominent part of patient care due to advances in technology and the ability of radiology to provide services that were traditionally done in surgery or not done because of limited knowledge. Many procedures are facilitated by the radiology nurse from initial consult to transfer to a hospital unit or discharge and follow up. Nurses assess, monitor, administer sedation, other medications, and respond to emergencies. They serve as educators, researchers, and resource personnel to the radiology department and in many instances to the entire facility. Radiology nurses are real leaders. In order to keep up to date on new developments, nurses need new literature to support their clinical expertise and leadership. This book is an unparalleled resource written by experts in their areas of interest. **Mental Health in Nursing** Kim Foster, Peta Marks, Anthony O'Brien, Toby Raeburn, 2020-10-20
