**Nursing Older People at a Glance** Josephine Tetley, Nigel Cox, Kirsten Jack, Gary Witham, 2018-06-18 As the environment of care continues to evolve to promote person-centredness, dignity, health and wellbeing for nurses working with older people, this can be challenging. Nursing Older People at a Glance is a timely publication which provides an overview of key concepts that nurses need to know in order to care for older people in a wide range of settings. Divided into six sections, it explores a range of themes such as person-centred care, health and wellbeing, health promotion and the complexity of older people's care encompassing mental wellbeing, diverse communities and learning disability. With a strong focus on dignity in care throughout, Nursing Older People at a Glance will readily equip undergraduate and post-qualification nurses with the knowledge and skills required to care for older people in a competent and compassionate manner.

Nursing Informatics for the Advanced Practice Nurse, Second Edition Susan McBride, Mari Tietze, 2018-09-28 A must-have text for all healthcare professionals practicing in the digital age of healthcare, Nursing Informatics for the Advanced Practice Nurse, Second Edition delivers a practical array of tools and information to show how advanced practice nurses can maximize patient safety, quality of care and cost savings through the use of technology. Since the first edition of this text, health information technology has only expanded. With increased capability and complexity, the current technology landscape presents new challenges and opportunities for interprofessional teams. Nurses who are already trained to use the analytic process to assess, analyze and intervene are in a unique position to use this same process to lead teams in addressing healthcare delivery challenges with data. The only informatics text written specifically for advanced practice nurses, Nursing Informatics for the Advanced Practice Nurse, Second Edition takes an expansive, open and innovative approach to thinking about technology. Every chapter is highly practical, filled with case studies and exercises that demonstrate how the content presented relates to the contemporary healthcare environment. Where applicable, concepts are aligned with the six domains within the Quality and Safety Education in Nursing (QSEN) approach and are tied to national goals and initiatives. Featuring chapters written by physicians, epidemiologists, engineers, dietitians and health services researchers, the format of this text reflects its core principle that it takes a team to fully realize the benefit of technology for
