

**RM 6400 TARGET SCOPE 1/8 M.O.A.**

The Redfield RM 6400 is a receiver mounted target scope. This scope is available in 16, 20 or 24 power.

The RM has 1/8 M. O. A. (Minute of Angle) adjustments and housed internally like the works of a fine watch. Exacting tolerances, precise machining and the use of two hardened-steel, spring-loaded clicker detents giving you a distinctive click. One click equals 1/8 inch at 100 yards, and one complete revolution of the adjust knob equals 9 inches at 100 yards and 18 inches at 200 yards. The spindle bushing is marked from 0 to 3, 36 to 72 and 72 to 108. Between 0 to 36 equals four revolutions of the adjust knob, and each half mark equals one revolution of the adjust knob or 9 inches at 100 yards.

**PARALLAX**

Parallax setting on objective bell is marked from 50 feet to infinity, also the bell extension is marked from 50 feet to infinity. To eliminate parallax at any range, loosen the parallax lock ring and turn the parallax adjust ring to the range desired. To do this you line up any given setting with the corresponding number on both the parallax adjust ring and the number marked on the bell extension. For example, to eliminate parallax at 100 yards the 100 yard setting on the parallax adjust ring must be set at the bottom of the 100 yard (V) mark on the bell extension. Now tighten parallax lock ring to assure that objective lens has moved. Check the scope for freedom from parallax at range desired by placing it in a steady position in a rest and aimed at a target at that range. Move your eye up and down from side to side. If the target appears to move in relation to the reticle make further minor adjustments until target appears stationary when eye is moved. When scope is parallax-free, it is also at its sharpest focus.

**MOUNTING SYSTEMS FOR
THE RM 6400 TARGET SCOPE**

Two different mounting systems are compatible with the RM 6400 scope:

1. **Standard Target Rings and Mounts (System Weight 155.9 grams)** These bases have been field proven on the 3200 scope and are ideal for receiver mounting bench rest and target competition rifles.

Small Bore Base Set (Use Ring 522035)

Redfield Scope Manual:

Elementary Gunsmithing Perry D. Frazer, 2015-02-03 A beginner's guide to the ins and outs of guncraftsmanship from a professional gunsmith. When it was first published in 1938, *Elementary Gunsmithing* was one of the few books of the time to address an amateur audience among more advanced titles. With clear, engaging, and instructional prose, Frazer takes beginner firearm interest to the next level by talking the reader through the fundamentals of gunsmithing, such as what tools are necessary for the craft, how to solder and mount parts, and even how to conduct a fledgling gunsmithing business. He specifically addresses the young man who likes working at the bench, and similarly, the book reflects the spirit of innovation, resourcefulness, and "do it yourself" work. While the book may not cover contemporary firearms, it offers a grandfatherly old-school instructional vibe with accurate information about guns up to the 1940s. Frazer focuses on gunsmithing with ordinary hand tools at the workbench rather than complicated machinery. These helpful tips and information, which are still applicable today, make *Elementary Gunsmithing* a useful classic and historically significant reference for both amateurs and budding gunsmiths keen on building a full-time business. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.
