Living Spirit of Revolt Žiga Vodovnik, 2013-11-01 The great contribution of Žiga Vodovnik is that his writing rescues anarchism from its dogma its rigidity its isolation from the majority of the human race He reveals the natural anarchism of our everyday lives and in doing so enlarges the possibilities for a truly human society in which our imaginations our compassion can have full play Howard Zinn author of *A People's History of the United States* from the Introduction At the end of the nineteenth century the network of anarchist collectives represented the first ever global antisystemic movement and the very center of revolutionary tumult In this groundbreaking and magisterial work Žiga Vodovnik establishes that anarchism today is not only the most revolutionary current but for the first time in history the only one left According to the author many contemporary theoretical reflections on anarchism marginalize or neglect to mention the relevance of the anarchy of everyday life Given this myopic misconception of its essence we are still searching for anarchism in places where the chances of actually finding it are the smallest
