**Engineering Perfection** Elyse Purcell, 2021-10-19 What do we owe our future children How do advances in biomedical science bear on these obligations How do capitalist incentives distort their execution Advances in biotechnologies for human enhancement and designer babies appear to offer us new hope to control the fragility of human living Some philosophers have argued that we have a moral imperative to use them especially to eliminate disabilities Elyse Purcell offers an opposing view one guided by existential insights and Marxist reflections Engineering Perfection Solidarity Disability and Well being explores the effect global capitalism may have on the selection of traits for our future children and how the commercialization of these technologies may lead to the elimination of bodily diversity Although philosophers have addressed the possible widening between the haves and have nots this book considers the role oppression and exploitation may play in enhancing bodies for profit As a challenge to the global economy of debility Purcell proposes the Solidarity view which embraces human vulnerability and embodied difference By reflecting on facets of the human condition the Solidarity view

challenges us to reject our conception of the good life as human perfection and instead reconceive of the good as one's self realization through the interdependent mutual recognition and co belonging with others

### **Developing Informed**

**Intuition for Decision-Making** Jay Liebowitz, 2019-07-19 This book examines how to develop the main traits that are necessary to become an informed intuitant Case studies and examples of successful informed intuitants are a major component of the book Intuitant is someone who has the intuitive awareness to be successful Informed intuitant indicates that the individual decision maker not only applies his/her intuition but also verifies it through using data driven approaches

such as data analytics Some of this work resulted from research examining how well do executives trust their intuition

Law, Policy and Reproductive Autonomy Erin Nelson, 2014-07-18 Reproductive choices are at once the most private and intimate decisions we make in our lives and undeniably also among the most public Reproductive decision making takes place in a web of overlapping concerns political and ideological socio economic health and health care all of which engage the public and involve strongly held opinions and attitudes about appropriate conduct on the part of individuals and the state Law Policy and Reproductive Autonomy examines the idea of reproductive autonomy noting that in attempting to look closely at the contours of the concept we begin to see some uncertainty about its meaning and legal implications about how to understand reproductive autonomy and how to value it Both mainstream and feminist literature about autonomy contribute valuable insights into the meaning and implications of reproductive autonomy The developing feminist literature on relational autonomy provides a useful starting point for a contextualised conception of reproductive autonomy that creates the opportunity for meaningful exercise of reproductive choice With a contextualised approach to reproductive autonomy as a backdrop the book traces aspects of the regulation of reproduction in Canadian English US and Australian law and policy arguing that not all reproductive decisions necessarily demand the same level of deference in law and policy and making recommendations for reform

Contemporary Catholic Health Care Ethics David F. Kelly, Gerard Magill, Henk ten Have, 2013-04-01 Contemporary Catholic Health Care Ethics Second Edition integrates theology methodology and practical application into a detailed and practical examination of the bioethical issues that confront students scholars and practitioners Noted bioethicists Gerard Magill Henk ten Have and David F Kelly contribute diverse backgrounds and experience that inform the richness of new material covered in this second edition The book is organized into three sections theology basic issues underlying Catholic thought methodology how Catholic theology approaches moral issues including birth control and applications to current issues New chapters discuss controversial end of life issues such as forgoing treatment killing versus allowing patients to die ways to handle decisions for incompetent patients advance directives and physician assisted suicide Unlike anthologies the coherent text offers a consistent method in order to provide students scholars and practitioners with an understanding of ethical dilemmas as well as concrete examples to assist in the difficult decisions they must make on an everyday basis

**Efficiency, Justice and Care** Yvonne Denier, 2007-03-06 Since the 90 s issues of scarcity priority setting and rationing lie at the centre of most current debates on health care These are pressing issues one way or another limits have to be set As such the question of what is involved in just health care becomes much more complex This complexity can be represented as an inconsistent triad a set of three propositions of which any two are compatible but which together form a contradiction In the case of health care the three rival values are social efficiency justice and decent quality care It seems to be that we can have any two but not all three Essentially the central question is the following how best to square the proverbial welfare circle How can resources be matched to needs or needs to resources in socially acceptable and

economically feasible ways This book attempts to answer the question how health care can be incorporated into a comprehensive theory of justice while realising an acceptable balance between efficiency justice and care Resources in Education ,1998 *Management and Leadership for Nurse Administrators* Linda A.
