

Forensic interviewing - week 4

The Reid technique

The Reid technique:

- Developed with FBI
- Approach developed used in USA (discourage from use in aus)

Stage 1:

- Non-accusatory, unstructured information-gathering process, where officer determines suspect's guilt/innocence (note-taking)
- Casual
- Non-accusatory
- Data gathering = their story/presentation

Stage 2

- Interrogation: accusatory persuasive approach, only conducted when officer has reasonable grounds to believe suspect is guilty (no note taking)
- This is because you look like you still don't know but you are accusing them

Reid technique: 9 step interrogation:

1. Direct, positive confrontation:
 - Confront the suspect with a statement that he/she is considered to be the person who committed the crime
 - Pause to evaluate the suspect's verbal/non verbal response
2. Theme development:
 - Propose a reason for the crime's commission. Theme depends on how emotional suspect is
 - Emotional suspect: use minimisation techniques that underplay seriousness of crime & provide excuses to relieve guilt (e.g., blame co-offenders)
 - Non-emotional suspect: use maximisation techniques that exaggerate evidence & suggest it is pointless to deny guilt
3. Handling denials: discourage denial and return to theme developed in stage 2
4. Overcoming objections:
 - Allow some explanations and express understanding, truthful tends to be more direct "i did not kill my wife" non truthful tends to be less direct "that's not possible, i would never do that" continue to build rapport and trust
5. Procurement and retention of suspect's attention: move closer with eye-contact
6. Handling suspect's passive mood: offer motives while maintaining sympathetic persona
7. Presenting an alternative question:
 - suspect given choice between 2 explanations of crime (one more acceptable/understandable than the other)
8. Develop details of the offence:
 - After an alternative is chosen, have suspect orally relate details of offence - establishes legal guilt
9. Written confession:
 - Converting oral confession into written statement, signed by suspect

Ethical reminders:

- Risk of eliciting false confessions
