about the local practices of a single denomination at its smallest jurisdiction This book explores how national denominational  
commitments are affecting the practices of local United Church of Christ congregations inside a single association in the  
Shenandoah Valley Nationally the UCC defines itself as a united and uniting church in its ecumenical work as multiracial and  
multicultural in its diversity as accessible to all in welcoming those with disabilities as open and affirming for its LGBT  
members and as a just peace church in its support of social justice So how fully have local congregations embraced these  
commitments Might congregations be more attached to their older identities particularly in areas where the church s  
predecessors were strongly rooted Or are the national church s commitments being lived out at the grassroots level The book  
measures congregational life in one of the UCC s oldest and smallest associations Books on congregational studies either  
focus on a case study of a particular congregation or large scale surveys of U S congregations that explore aggregate data to  
explain their work This book looks instead at a group of local congregations inside a small judicatory the Shenandoah
