

Personality Paper

Personality Paper Temperament Description Who would have thought that such a little booklet could contain such personal and accurate information about each individual's personality simply by filling in bubbles to answer simple multiple-choice questions? Upon first glance, I thought that "The Keirsey Temperament Sorter" would never be able to correctly depict my personality. However, I still managed to fill out the questionnaire in a careful and truthful manner despite my convictions. After taking the personality questionnaire, my results showed my personality type falling under the category "Idealist" as an ESFP.

To my surprise, I found this to be quite similar to how I would describe my own personality type. By further research, I determined that ESFP actually stands for extraversion, sensing, feeling and perceiving. The description described an ESFP as a friendly person who helps others enjoy life. Also, it stated that they tend to make warm and enthusiastic friends and are more likely to pay attention to details and value a realistic approach to solving problems. Taking into my major in nursing at MSU, I decided to research if this would fit my ESFP personality type.

After reading the ESFP description more thoroughly it gave several career suggestions such as nursing, child care, restaurant work, sales and counseling. Also, it mentioned that ESFP's look for a job that is fun and prefer to work with others in groups. By expanding deeper into this subject, I found that ESFP individuals live in the world of people and possibilities. They love being around people and experiencing new things. They live in the present, and relish excitement and drama in their lives. I found this extremely interesting PERSONALITY PAPER because I am always excited to go into new settings and meet new people.

When I am with my friends I am always the first one to jump at the thought of meeting new people or exploring new places. Another characteristic associated with ESFP individuals is that they have very strong inter-personal skills, and may find themselves in the role of the peacemaker frequently. Coincidentally, I found myself taking on the peacemaker roll many times throughout this year. Whether it is solving roommate disputes, family problems, or co-worker relationship issues, I am usually placed in the middle and forced to help individuals find common ground. Lastly, another characteristic associated with ESFP's is when under a great deal of stress, they many times are overwhelmed with negative thoughts and possibilities. Just recently I found that whenever anyone is angry with me, I solely think about the endless possibilities as to why they are angry. For instance, when my roommate was angry with me, I had an extremely difficult time focusing on anything else but the issue at hand. Consequently, I did horrible on the exam and the roommate dilemma was still not solved. Communication According to ESFP personalities, they do not like confrontation so
