The Descent of Man: DNA coding gives the answer Victor W. Chang, Guoping Song,2020-07-04

There are two big problems that science still has not resolved They are What are we Where do we come from These two questions have troubled people for centuries 150 years ago Charles Darwin wrote two books On the Origin of Species and The Descent of Man and Selection in Relation to Sex In these two books the theory of species evolution was proposed all species are constantly evolving the present people and all species are formed through natural selection The basis of this theory is based on the comparison of biological forms Now knowing that all the genetic information of living things is completely determined with DNA is evolution still correct Did

humanity evolve from apes This book will answer these questions Scientific Evidence of the Christian Faith, DNA — the Starting Point Victor W. Chang, Guoping Song, 2020-07-04 Does the Christian faith have scientific evidence This is difficult to believe However since DNA was discovered we now understand the entire DNA coding sequence of humans is consistent and the difference is only one thousandth The theory of mathematics probability tells us that it could not be the result of spontaneous generation Therefore the molecular biologist put forward that people of the whole world have the common grandfather Y chromosome Adam theory and the common grandmother Eve theory Do you agree What is amazing is that there is no difference between man s and woman s 2 9 billion chromosomal DNA coding sequence meaning that human DNA coding is from one individual Only men have the complete set of the chromosome so the source individual must be a man and the first woman was from the man The first man had no carnal parents and it only could be Adam created by God Due to the constancy of biological genome DNA coding it is impossible for any species to have an evolution connection not even microevolution This is what is recorded in the Bible as all living from each category It therefore can be seen that life s DNA coding sequence is from God s Creation From our DNA we could see that all the substances and lives in the universe are created by God These scientific facts are totally consistent with the Biblical record and are objective evidence of the Christian faith **The First Conquistador** Robert L. Foster, 2015-09-28 In the early 1500s twenty four year old Spanish Captain Luis Escudero is already a legend in Spain s professional army living and fighting in her battles gambling his life on the slim chance that one day he ll have enough money to travel to that strange new world Christopher Columbus discovered just twenty five years ago There he will build a ranch leave the army and live in peace Destiny takes a hand and Luis gamble might just pay off if he can stay alive long enough King Carlos offers him command of a top secret expedition with orders to explore Mexico s Aztec empire and determine whether wild rumors of vast piles of gold and silver are true or just wild delusions of drunken sailors Spain needs a quick infusion of gold to stave off a financial crisis No European has ever set foot in that barbaric empire and crawled back to civilization alive King Carlos tells Luis It ll be an enormous challenge You ll be outnumbered thousands to one but if you and your men somehow manage to survive return and verify there is gold I ll dispatch Hernando Cortez and his conquistadors to seize it and ship it back to Spain Captain Luis Escudero and his battle hardened mercenaries the first Europeans to enter Mexico set sail for the Aztec empire and this strange mysterious adventure begins Will the Aztecs allow foreign invaders to peacefully explore their historic land Not if the Aztec army commander has anything to say about it
