The New Typography in Scandinavia Trond Klevgaard, 2020-10-15 This is the first monograph on Scandinavia's New Typography. It provides a detailed account of the movement's lifespan in the region from the 1920s up until the 1940s when it was largely incorporated into mainstream practice. The book begins by tracing how the New Typography from its origins in the central and eastern European avant garde arrived in Scandinavia. It considers the movement's transformative impact on printing, detailing the cultural and technological reasons why its ability to act as a modernising force varied between different professional groups. The last two chapters look at how New Typography related to Scandinavian society more widely by looking at its ties to functionalism and social democracy, paving the way for a discussion of the reciprocal relationship between the culture of practitioners and the cultural work performed through their practice. Based on archival research undertaken at a number of Scandinavian institutions, the book brings a wealth of previously unpublished visual material to light and provides a fresh perspective on a movement of central and enduring importance to graphic design history and practice.

Were We Ever Protestants? Sivert Angel, Hallgeir Elstad, Eivor Andersen Oftestad, 2019-09-23 This anthology discusses different aspects of Protestantism past and present. Professor Tarald Rasmussen has written both on medieval and modern theologians, but his primary interest has remained the reformation and 16th century church history. Instead of a traditional Festschrift honouring the different fields of research, he has contributed to this will be a focused anthology treating a specific theme related to Rasmussen's research profile. One of Professor

Rasmussen's most recent publications a little popularized book in Norwegian titled *What is Protestantism* reveals a central aspect research interest namely the Weberian interest for Protestantism's cultural significance. Despite difficulties he finds the concept useful as a Weberian *Idealtypus* enabling research on a phenomenon combining theological, historical and sociological dimensions. Thus he employs the Protestantism as an integrative concept to trace the makeup of today's secular societies. This profiled approach is a point of departure for this anthology discussing important aspects of historiography in reformation history. Continuity and breaks surrounding the reformation contemporary significance of reformation history research traces of the reformation in today's society. The book relates to current discussions on Protestantism and is relevant to everyone who wants to keep up to date with the latest research in the field. **Encyclopedia of the Arctic** Mark

East Meets West Edward H. Tarr, 2003 The waning years of the Russian Empire witnessed the development of a rich tradition of trumpet playing. Noted trumpet scholar and performer Edward Tarr's latest book illuminates this tradition which is little known in the West. Tarr's extensive research in hitherto inaccessible Russian archives has uncovered many documents that illuminate the careers of noted performers. These documents are reproduced here for the first time. A concise chronological summary of Russian political and musical developments provides an effective backdrop for this inventory of trumpeters. The author ably demonstrates how profoundly Russian trumpet playing and pedagogy were influenced by emigrants particularly from Germany: Wilhelm Wurm, Willy Brandt, Oskar Böhme and how Russian born trumpeters like Vladimir Drucker subsequently influenced the American musical scene. In his *Lexicon of Trumpeters* both Russian and Foreign Active in Russia Tarr supplements his own research with information from valuable but obscure secondary sources in Russian. This lexicon carries the story into the late twentieth century and includes modern legendary figures such as Timofey Dokshizer. Members of the International Trumpet Guild will receive a discount of 15% on purchases of this title. Publisher's Practical
