Rhetorical Power Steven Mailloux,2018-08-06 In this provocative and forcefully written book Steven Mailloux takes issue with the validity of a number of distinctions commonly made in contemporary literary theory and cultural studies distinctions between theory and history reader and text truth and ideology aesthetics and politics Mailloux first presents the case for a rhetorical hermeneutics and against foundationalist theories of interpretation Doing hermeneutic theory he argues entails doing rhetorical history By means of a detailed analysis of reader response criticism he highlights the connections between institutional politics and the interpretive rhetoric of academic literary criticism Mailloux then uses *Adventures of Huckleberry Finn* as an exemplary text Relating Mark Twain's rhetoric to the cultural politics of post Reconstruction debates about racist ideology he places his reader oriented interpretation within the rhetorical history of controversies over the

meaning and value of Huckleberry Finn Finally in a far ranging study of cultural reception he juxtaposes the twentieth century concern about the topic of race in Huckleberry Finn with the nineteenth century audience s very different concerns about juvenile delinquency and the bad boy boom In the final part of the book Mailloux restates his critique of foundationalist hermeneutics through readings of Ken Kesey Michel Foucault Edward Said and Richard Rorty and he concludes by examining the role of rhetoric and theory in a congressional dispute over the Reagan administration s reinterpretation of the Anti Ballistic Missile Treaty Rhetorical Power will be welcomed by readers in literary theory and American studies as well as in such fields as speech communication the sociology of culture and social and intellectual history and by others interested in the politics of persuasion

Rhetoric and Drama in the Johannine Lawsuit Motif George L. Parsenios, 2010 George L. Parsenios explores the legal character of the Gospel of John in the light of classical literature especially Greek drama Johannine interpreters have explored with increasing interest both the legal quality and the dramatic quality of the Fourth Gospel but often do not connect these two ways of reading John Some interpreters even assume that the one approach excludes the other and that John is either legal or dramatic but not both Legal rhetoric and tragic drama however were joined throughout antiquity in a complex pattern of mutual influence To connect John to drama therefore is to connect John to legal rhetoric and doing so helps to see even more clearly the pervasiveness of the legal motif in the Gospel of John Tracing the legal character of seeking in Sophocles Oedipus Rex for example sheds new light on the legal character of seeking in the Fourth Gospel especially in the enigmatic comment of Jesus at John 8 50 New insights are also offered regarding the evidentiary character of the signs of Jesus based on comparison with Aristotle s comments about signs and rhetorical evidence in both the Poetics and Rhetoric as well as by comparison with plays by Aeschylus Sophocles and Euripides To call the signs of Jesus evidence however does not remove them from the dialectical tension inherent in Johannine theology If the signs are evidence they are evidence in a world in which the basis of forming judgments has been problematized by the appearance of the Word in the flesh

The Handbook of Global Interventions in Communication Theory Yoshitaka Miike, Jing Yin, 2022-03-10 Moving beyond the U S Eurocentric paradigm of communication theory this handbook broadens the intellectual horizons of the discipline by highlighting underrepresented especially non Western theorists and theories and identifies key issues and challenges for future scholarship Showcasing diverse perspectives the handbook facilitates active engagement in different cultural traditions and theoretical orientations that are global in scope but local in effect It begins by exploring past efforts to diversify the field continuing on to examine theoretical concepts models and principles rooted in local cumulative wisdom It does not limit itself to the mass interpersonal communication divide but rather seeks to frame theory as global and inclusive in scope The book is intended for communication researchers and advanced students with relevance to scholars with an interest in theory within information science library science social and cross cultural psychology multicultural education social justice and social ethics international relations development

studies and political science *Adaptive Rhetoric* Alex C. Parrish, 2013-11-07 Rhetorical scholarship has for decades relied solely on culture to explain persuasive behavior While this focus allows for deep explorations of historical circumstance it neglects the powerful effects of biology on rhetorical behavior how our bodies and brains help shape and constrain rhetorical acts Not only is the cultural model incomplete but it tacitly endorses the fallacy of human exceptionalism By introducing evolutionary biology into the study of rhetoric this book serves as a model of a biocultural paradigm Being mindful of biological and cultural influences allows for a deeper view of rhetoric one that is aware of the ubiquity of persuasive behavior in nature Human and nonhuman animals and even some plants persuade to survive to live love and cooperate That this broad spectrum of rhetorical behavior exists in the animal world demonstrates how much we can learn from evolutionary biology By incorporating scholarship on animal signaling into the study of rhetoric the author explores how communication has evolved and how numerous different species of animals employ similar persuasive tactics in order to overcome similar problems This cross species study of rhetoric allows us to trace the origins of our own persuasive behaviors providing us with a deeper history of rhetoric that transcends the written and the televised and reveals the artifacts of our communicative past

Doing News Framing Analysis Paul D'Angelo, Jim A. Kuypers, 2010-02-26 Doing News Framing Analysis provides an interpretive guide to news frames what they are how they can be observed in news texts and how framing effects are uncovered and substantiated in cultural group and individual sites Chapters feature framing analysts reflecting on their own empirical work in research classroom and public settings to address specific aspects of framing analysis Taken together the collection covers the full range of ways in which framing has been theorized and applied across topics sources mechanisms and effects This volume fosters understanding among the scholarly camps of framing scholars and encourages greater clarity from framing analysts in all aspects of their empirical inquiry Chapters offer fresh perspectives from which researchers can begin new research programs puzzle through perplexing problems in a current research program or expand an existing program Providing conceptual and methodological guidance Doing News Framing Analysis will help framing researchers at all levels to better understand news framing and to improve their future news framing research *On Monosemy* Charles Ruhl, 1989-07-17 In this book the author argues that words should be presumed initially to be monosemic having a single highly abstract meaning Semantic research should first seek a unitary meaning resorting to polysemy homonymy or idiomaticity only when an extended attempt fails Utilizing a large data base this book shows that some supposed lexical semantic meaning is actually pragmatic or extralinguistic Included are extensive treatments of the verbs bear hit kick and slap the phrase take off and the noun ice Ruhl studies linguistic research methods and theory most directly relevant to the fields of semantics and pragmatics and also to lexicography cognitive science and artificial intelligence The hypothesis of monosemy implies significant changes of perspective and application for all fields which deal in lexical definition
