AS Psychology Unit 1: Cognitive Psychology, Developmental Psychology, Research Methods Nicholas Alexandros Savva, 2014-10-28 The exam books have been carefully written using student friendly language and a layout you will find easy to understand Each topic has been broken down into EXAM NOTES which are more concise than general psychology text books but more comprehensive than standard revision guides These books have been specially developed and written by experienced teachers and examiners to help students achieve the best possible grade in their psychology exam Reduce frustration All exam notes are presented in an easy way for you to learn Prevent nail biting No more I don't get this Key theories and studies are written in an easy peasy friendly way Prevent Hair loss Don't pull your hair out over the evaluation part We have written it all for you Reduce panic attacks We have given you lots of exam questions at the end of the exam notes to practise to prevent shock in the real exam if you haven't seen any before Prevent confusion Use the revision checklist as you study to tell you what and how much you need to know Visit www.psychologyzone.co.uk the only dedicated A Level Psychology website which has over 1000 exam questions and model answers exam notes exam advice and much more Register onto the website and use the examGenerator tool You can search for exam style questions with model answers or mark schemes and create your own revision or mock paper

Psychology Geoffrey Shoemith, 2014-03-25 This book provides simple clear in depth explanations of all the topics in the AQA GCSE specification 4180 syllabus but it will prove invaluable to students at many levels on many courses and to the independent reader It can be used as a stand alone home study course as a classroom text as a reference text or just for pleasure for those who love to think about what makes people tick Psychology describes up to date research as well as some classic psychology studies and even debunks one or two psychology research myths It leads the reader through all the topics in the syllabus as a teacher would in a classroom setting Topics are presented as a series of lessons followed by Check Your Understanding sections which are designed to help you check and retain the information in each lesson An assessment record provided at the end of the book will help you keep track of your progress Lessons are interactive with many opportunities to jot down your thoughts and reactions reflect on

how a topic relates to your own experience discuss with other people and become more involved with the material presented Students can pinpoint the topics they are studying for GCSE by using the table mapping the GCSE specification against the lessons in this book For those studying outside formal classrooms there are guidelines about how best to approach your studies The book assumes that readers have no previous knowledge of psychology and among the topics covered are Conformity and Obedience would you press a button to kill someone just because you are told to do so Many people would it seems Sex and Gender do girls and boys men and women behave so differently If so why Memory how does memory work and how accurate is it Non Verbal Communication do we reveal our true feelings in our body language Development of Personality what exactly is Anti Social Personality Disorder Prejudice and Discrimination are we bound to discriminate against people who are unlike us Learning how to remove your fear of spiders snakes flying open spaces or anything else using the principles of learning Aggression is aggression born into us Is it in our hormones Or do we learn to fight Research Methods and the Ethics of Psychology psychology is based on evidence not just ideas But what type of study constitutes good evidence and how should we treat the people in our studies

The Learning Rainforest: Great Teaching in Real Classrooms Tom Sherrington, 2017-10-23 The Learning Rainforest is an attempt to capture various different elements of our understanding and experience of teaching It is a celebration of great teaching the joy of it and the intellectual and personal rewards that teaching brings It is aimed at teachers of all kinds busy people working in complex environments with little time to spare The core of the book is a guide to making teaching both effective and manageable it provides an accessible summary of key contemporary evidence based ideas about teaching and learning and the debates that all teachers should be engaging in It is a book packed with strategies for making great teaching attainable in the context of real schools The Learning Rainforest metaphor is an attempt to capture various different elements of our understanding and experience of teaching Tom's ideas about what constitutes great teaching are drawn from his experiences as a teacher and a school leader over the last 30 years alongside everything he has read and all the debates he's engaged with during that time An underlying theme of this book is that a career in teaching is a process of continual personal development and professional learning as is engaging in fundamental debates rage on about the kind of education we value As you meet each new class and move from school to school your perspectives shift your sense of what seems to work adjusts to each new context In writing this book Tom is trying to capture some of the journey he's been on He has learned that it is ok to change your mind More than that sometimes it is simply necessary to get your head out of the sand to change direction to admit your mistakes

Aural and the University Music Undergraduate Colin R. Wright, 2016-12-14 Research indicates that aural skills are vital in developing musical expertise yet the precise nature of those skills and the emphasis placed upon them in educational contexts merit closer attention and exploration This book assesses the relevance of aural in a university music degree and as a preparation for the professional career of a classical musician By way of the discussion of four empirical studies two main areas are investigated firstly the relationship between university music students aural ability and their overall success on a music degree programme and secondly the views of music students and professional musicians about aural and its relevance

to their career are analysed The subject is investigated particularly in the light of the current socio educational background of the past fifty years which has greatly influenced the participation of music and the study and development of musicianship Many related issues are touched upon as part of the research for this project and these emerge as relevant topics in the discussion of aural Apart from students and musicians views on training and singing aspects considered include the role of improvisation memorisation and notation examinations absolute pitch and the affinity with language all of which have a part to play in the debate about the importance of aural
