Small-Angle Scattering (Neutrons, X-Rays, Light) from Complex Systems Eugen Mircea Anitas, 2019-08-08 This book addresses the basic physical phenomenon of small angle scattering SAS of neutrons x rays or light from complex hierarchical nano and micro structures The emphasis is on developing theoretical models for the material structure containing self similar or fractal clusters Within the suggested framework key approaches for extracting structural information from experimental scattering data are investigated and presented in detail The range of parameters which can be obtained pave the road towards a better understanding of the correlations between geometrical and various physical properties electrical magnetic mechanical optical dynamical transport etc in fractal nano and micro materials
