

REASON, EXPERIENCE, and GOD

John E. Smith in Dialogue

EDITED BY VINCENT M. COLAPIETRO

AMERICAN PHILOSOPHY SERIES

Reason Experience And God

Stephen T. Davis

Reason Experience And God :

God, Reason, and Theistic Proofs Stephen T. Davis, 1997 Wisely structured and clearly written God Reason and Theistic Proofs will make an excellent resource for those looking for an introduction to the debate surrounding the existence of God or for those seeking intellectual validation for their faith

Mystical Experience of God Jerome Gellman, 2017-11-01 This title was first published in 2001 Engaging contemporary discussion concerning the validity of mystical experiences of God Jerome Gellman presents the best evidential case in favor of validity and its implications for belief in God Gellman vigorously defends the coherence of the concept of a mystical experience of God against philosophical objections and evaluates attempts to provide alternative explanations from sociology and neuropsychology He then carefully examines feminist objections to male philosophers treatments of mystical experience of God and to the traditional hierarchal concept of God Gellman finds none of the objections decisive and concludes that while the initial evidential case is not rationally compelling for some it can be rationally compelling for others Offering important new perspectives on the evidential value of experiences of God and the concept of God more broadly this book will appeal to a wide range of readers including those with an interest in philosophy of religion religious studies mysticism and epistemology

John Oman and His Doctrine of God Stephen

Bevens, 1992-05-21 This book sets the Scottish theologian John Oman 1860 1939 in his historical and cultural context

Dancing with God Karen Baker-Fletcher, 2006-12-01 Dancing With God is an exploration of the divine gifts of courage and grace in the face of evil Moreover it is a doctrine of God as the source of that courage Baker Fletcher presents an understanding of the work of the Trinity with regard to the problem of crucifixion a metaphor she uses for unnecessary violence She develops a process of relational womanist theology that considers the empathetic omnipresence of God in the midst of unnecessary suffering and the healing power of God in movement of the Holy Spirit She engages the contributions of a diversity of theologians like Paul Tillich Karl Barth Gordon Kaufman John Cobb Jr Majorie Suchocki Charles Hartshorne Andrew Sung Park and Katie Cannon in her discussion of the dance of the Trinity in creation and the problem of sin evil and suffering Through creative works like that of Alice Walker s *The Color Purple* and journalist Joyce King s account of the James Byrd Jr murder in Jasper County Texas Baker Fletcher reveals the healing encouraging power of the Holy Spirit in the lives of survivors of unnecessary violence

Brain, Consciousness, and God Daniel A. Helminiak, 2015-07-21 A constructive critique of neuropsychological research on human consciousness and religious experience that applies the thought of Bernard Lonergan Brain Consciousness and God is a constructive critique of neuroscientific research on human consciousness and religious experience An adequate epistemology a theory of knowledge is needed to address this topic but today there exists no consensus on what human knowing means especially regarding nonmaterial realities Daniel A Helminiak turns to twentieth century theologian and philosopher Bernard Lonergan s breakthrough analysis of human consciousness and its implications for epistemology and philosophy of science Lucidly summarizing Lonergan s key ideas

Helminiak applies them to questions about science psychology and religion Along with Lonergan eminent theorists in consciousness studies and neuroscience get deserved detailed attention Helminiak demonstrates the reality of the immaterial mind and addressing the Cartesian mind body problem explains how body and mind could make up one being a person Human consciousness is presented not only as awareness of objects but also as self presence the self conscious experience of human subjectivity a spiritual reality Lonergan s analyses allow us to say exactly what spiritual means and it need have nothing to do with God This book makes a seminal contribution to the psychology of religion and is on the cutting edge of the growing interest in the spiritual dimensions of human beings Daniel Helminiak writes knowledgeably about neurobiology psychotherapy philosophy and even psychedelic experience His chapter on the God concept is a tour de force and worth the price of the entire book Once I started this book I could barely put it down Stanley Krippner Saybrook University This is an amazing book It is both lucid and brilliant Deeply informed by Bernard Lonergan s systematic treatment of human knowing as a composite of experience understanding and judgment Daniel Helminiak masterfully places study of spirituality within the self transcending dimension of the human mind and in so doing differentiates and interrelates neuroscience psychology spirituality and theology Ralph W Hood University of Tennessee at Chattanooga In this book magnificently and comprehensively Helminiak struggles toward an integrated perspective on the unfolding of the universe Focused on humanity his topic is actually the origins and dynamics of human yearning As best he can he meets contemporary theorists on their own ground and repeatedly nudges their thinking toward a more coherent position The result cuts both ways It challenges students of Lonergan who underappreciate natural and social processes and it challenges natural and social scientists who seek a science of mind while subtly sidestepping their inquiring selves Yet Helminiak presents only a seedling Its full bloom would be Lonergan s new global omnidisciplinary science envisaged in Method It does indeed qualify as Patricia Churchland s sought real humdinger of a solution Philip McShane author of Randomness Statistics and Emergence Intense yet lucidly clear this work by Daniel Helminiak provides a sequel to Michael H McCarthy s The Crisis of Philosophy Helminiak turns a laser on the crisis and not only exposes significant counterpositions but also offers a solution using the intellectual epistemology of Bernard Lonergan Worth a read by anyone seeking real explanation rather than mere description this work invites readers to be weaned from picture thinking to claim the reality of their intelligence whatever their field Carla Mae Streeter Aquinas Institute of Theology

Religion and the Challenges of Science Mr Richard Feist, Professor William Sweet, 2013-05-28 Does science pose a challenge to religion and religious belief This question has been a matter of long standing debate and it continues to concern not only scholars in philosophy theology and the sciences but also those involved in public educational policy This volume provides background to the current science and religion debate yet focuses as well on themes where recent discussion of the relation between science and religion has been particularly concentrated The first theme deals with the history of the interrelation of science and religion The second and third themes deal with the

implications of recent work in cosmology biology and so called intelligent design for religion and religious belief The fourth theme is concerned with conceptual issues underlying or implied in the current debates such as Are scientific naturalism and religion compatible Are science and religion bodies of knowledge or practices or both Do religion and science offer conflicting truth claims By illuminating contemporary discussion in the science religion debate and by outlining the options available in describing the relation between the two this volume will be of interest to scholars and to members of the educated public alike

Reason, Experience, and God Vincent Michael Colapietro, Vincent Colapietro, 1996 John E Smith has contributed to contemporary philosophy in primarily four distinct capacities first as a philosopher of religion and God second as an indefatigable defender of philosophical reflection in its classical sense a sense inclusive of but not limited to metaphysics third as a participant in the reconstruction of experience and reason so boldly inaugurated by Hegel then radically transformed by the classical American pragmatists and significantly augmented by such thinkers as Josiah Royce William Earnest Hocking and Alfred North Whitehead fourth as an interpreter of philosophical texts and traditions Kant Hegel and Nietzsche no less than Charles Peirce William James and John Dewey German idealism as well as American the Augustinian tradition no less than the pragmatic Reason Experience and God provides an important and comprehensive look at the work of John E Smith by collected essays which each address aspects of his life long work A response by John E Smith himself draws a line of continuity between the pieces

Problems of Evil and the Power of God James A. Keller, 2007-01-01 Why do bad things happen even to good people If there is a God why aren't God's existence and God's will for humans more apparent And if God really does miracles for some people why not for others This book examines these three problems of evil suffering divine hiddenness and unfairness if miracles happen as believers claim to explore how different ideas of God's power relate to the problem of evil

Philosophy of Religion Keith E. Yandell, 2016-05-20 Keith Yandell's *Philosophy of Religion: A Contemporary Introduction* was one of the first textbooks to explore the philosophy of religion with reference to religions other than Christianity This new revised edition explores the logical validity and truth claims of several world religions Christianity Judaism Islam Hinduism Buddhism and Jainism with updated streamlined discussions on important topics in philosophy of religion such as Religious pluralism Freedom and responsibility Evidentialist Moral Theism Reformed Epistemology Doxastic Practice Epistemology The problem of evil Ontological and cosmological arguments Other new features include updated Questions for Reflection and new Annotated Bibliographies for each chapter as well as an updated Glossary This exciting new edition much like its classic predecessor is sure to be a classroom staple for undergraduate students studying philosophy of religion as well as a comprehensive introductory read for anyone interested in the subject

Does God Exist? Stan W. Wallace, 2020-09-23 This book presents the most recent debates by leading contemporary philosophers of enduring themes and issues concerning the question of God's existence William Craig and Antony Flew met on the 50th anniversary of the famous Copleston Russell debate to discuss the question of God's existence

in a public debate The core of this book contains the edited transcript of that debate Also included are eight chapters in which other significant philosophers Paul Draper R Douglas Geivett Michael Martin Keith Parsons William Rowe William Wainwright Keith Yandell and David Yandell critique the debate and address the issues raised Their substantial and compelling insights complement and further the debate helping the reader delve more deeply into the issues that surfaced In the two final chapters Craig and Flew respond and clarify their positions taking the debate yet one step further The result of these many contributions is a book which provides the reader with a summary of the current discussion and allows one to enter into the dialogue on this central question in the philosophy of religion *Experience, Reason, and God* Eugene Thomas Long,1980 Existential Reasons for Belief in God Clifford Williams,2020-03-18 Lived faith involves doctrines evidences and rational coherence but it includes much more Philosopher Clifford Williams puts forth an argument as to why certain needs desires and emotions have a legitimate place in drawing people into faith in God Addressing the strongest objections to these types of grounds for faith he shows how the personal and experiential aspects of belief play an important part in coming to faith and in remaining a believing person 100 reasons to be atheist Josep Valls Selga,2024-04-11 Discover the groundbreaking exploration of faith in 100 Reasons to be Atheist and Yet Finding Meaning in Life Journey through time from ancient myths to modern memes as the author unravels the mysteries of religious beliefs Challenge the status quo question the divine and dive deep into the human psyche This isnt just a book its an awakening As traditional theistic views are deconstructed a new path emerges a guide to finding purpose and profound meaning in a world beyond gods A must read for skeptics and seekers alike The Cambridge History of Eighteenth-century Philosophy Knud Haakonssen,2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted **Self, God and Immortality** Eugene Fontinell,2018-09-18 Can we who have been touched by the scientific intellectual and experimental revolutions of modern and contemporary times still believe with and degree of coherence and consistency that we as individual persons are immortal Indeed is there even good cause to hope that we are In examining the present relationship of reason to faith can we find justifying reasons for faith These are the central questions in *Self God and Immortality* a compelling exercise in philosophical theology Drawing upon the works of William James and the principles of American Pragmatism Eugene Fontinell extrapolates carefully from data given in experience to a model of the cosmic process open to the idea that individual identity may survive bodily dissolution Presupposing that the possibility of personal immortality has been established in the first part the second part of the essay is concerned with desirability Here Fontinell shows that far from diverting attention and energies from the crucial tasks confronting us here and now such belief can be energizing and life enhancing The wider importance of *Self God and Immortality* lies in its pressing both immortality believers and terminality believers to explore both the metaphysical

presuppositions and the lived consequences of their beliefs It is the author's expressed hope that such explorations rather than impeding will stimulate co-operative efforts to create a richer and more humane community Religious Experience and the Knowledge of God Harold A. Netland, 2022-02-08 For many Christians personal experiences of God provide an important ground or justification for accepting the truth of the gospel But we are sometimes mistaken about our experiences and followers of other religions also provide impressive testimonies to support their religious beliefs This book explores from a philosophical and theological perspective the viability of divine encounters as support for belief in God arguing that some religious experiences can be accepted as genuine experiences of God and can provide evidence for Christian beliefs God and the History of the Universe Jarvis Streeter, 2016-03-22 The popular belief that a scientific understanding of reality is incompatible with a Christian one is simply wrong Some Christian understandings of reality do conflict with some scientific understandings But a thoroughly rational Christian understanding of the origin and history of the universe will be informed by the best scientific theories and the facts founded on them This book weaves a narrative of the origin and history of the universe from the perspective of contemporary science with a Christian understanding of God and of God's role in the origin and history of the universe At the center of this integrated narrative is the view that God who is pure unbounded Love is Creator the zest for life in the universe comes from God and God is the source of Truth Beauty and Goodness in the universe God is amazed and delighted at what God and the world has created God is saddened by ways creatures have fallen short of pure unbounded Love Truth Beauty and Goodness and God's pure unbounded Love keeps on trying to persuade all creatures toward Truth Beauty and Goodness *The Bible, Natural Theology and Natural Law: Conflict Or Compromise?* Robert A. Morey, 2010-05 Dr Robert Morey's study of natural law and natural theology raises important questions that every Bible believer will want answered His careful study and explanation of various Bible passages will yield a useful orientation to the classic arguments furnished us by the Reformers and their faithful heirs Dr Nelson Kloosterman The present volume presents a devastating critique of natural theology and natural law Its argument is solidly biblical and its accumulation of biblical data is overwhelming I hope that God prospers it so that many will read it and take heed Dr John Frame A W Tozer said the most important thing about any person is what comes into their mind when they think of the word God If you digest Dr Morey's book you will think of God as the glorious One depicted in Holy Scripture John G Reisinger I appreciate Dr Morey's emphasis on making the Bible alone the theoretical basis for science and the arts All throughout the book he consistently points to the Scriptures as the basis for sustaining everything else Dr Simon Kistemaker *Reason's Inquisition* Christopher A. Colmo, 2023-08-29 Reasons Inquisition On Doubtful Ground is an exploration in the literature of political philosophy before and after Alfarabi and ranging from Thucydides to Leo Strauss and Eric Voegelin These studies most of them previously unpublished open inquiries into theory and practice reason and revelation and the relation between thinkers ancient and modern Readers may be surprised to see the Platonist Alfarabi presented as a critic of Plato's theory in the name of practice

while Alfarabi and Hobbes are shown to have a common interest in a theory commensurate with action Strauss Voegelin and Lucien Febvre all explore the problem of reason and revelation in relation to the limits of human knowledge An ambitious study of Shakespeare s Macbeth explores the ambiguity of both nature and knowledge in relation to male and female good and evil present and future The contrast between ancients and moderns is explicit in questions of the modern aspects of Marlowe s Doctor Faustus and of Rousseau s reversal of Plato Kierkegaard and Heidegger bring radical modernity into focus against a Platonic background in the closing essay These diverse essays attempt to follow the thinkers and themes explored in turning a critical gaze upon reason itself

The Fifth Dimension Ramma Kher, 2017-06-08 The protagonist Meera emigrates from India to Canada as a newlywed Unfortunately her husband dies within a few months Her dear friend Jane commits suicide soon after To fulfill her last wishes Meera adopts her illegitimate son Rishi Janes ruthless and wicked mother Helena has Rishi in an immoral and convoluted web of deceit Rishi grows into a conflicted adolescent partly because of racism he experiences at school and partly due to Helenas indoctrination against his mother Rishi leaves Meera in spite of the sacrifices she made for him refusing a marriage proposal twice The protagonist is a highly moral and compassionate human who refuses to compromise her essence Constantly striving to preserve some semblance of beauty and truth in her turbulent life Meeras story is about sacrifice struggle and survival decrepitude and triumph and pain and transcendence by the Spirit the fifth dimension

Thank you very much for reading **Reason Experience And God** . As you may know, people have search numerous times for their chosen readings like this Reason Experience And God , but end up in harmful downloads.

Rather than reading a good book with a cup of tea in the afternoon, instead they juggled with some malicious bugs inside their desktop computer.
