3-2 Matters need attention before measurement

- When the signal displays at the state of power on, should replace the battery to ensure the accuracy.
- Do not switch the function knob when measuring.
- Capacitance measurement function is used to measure the capacitance value, can't used to measure the figure of merit of reactive power. It perhaps gets a wrong reading if measure the capacitance value of resistance; before measuring, it should release the capacitor completely. Beware of polarity when connects the polar capacitor. Do not connect the test COM with voltage source; otherwise it will cause grievous damage. Do not connect the test leads short-circuit.
