The Radical Case for Teaching Skim Reading in First-Year Writing Ellen C. Carillo, 2025-10-15 The Radical Case for Teaching Skim Reading in First Year Writing encourages faculty particularly in writing studies to check internal biases toward deep reading and teach skim reading in first year writing courses Written by Ellen C Carillo who has previously published on the importance of teaching deep reading this small book is a controversial prompt for further discussion and exploration Data from studies of the lived experiences of undergraduates indicate that students do not need deep reading practices in the majority of their classes across the disciplines and moreover that students succeed in their classes by skim reading Rather than imagining an idealized set of circumstances that allow for sustained deep reading as does a great deal of the scholarship on reading in writing studies The Radical Case for Teaching Skim Reading in First Year Writing argues for teaching students reading practices that will support their success in their college writing assignments rather than those strategies the field believes should support their success In our information landscape and our fragile democracy encouraging skimming as opposed to deep reading may seem like a gamble this very tendency toward the quick rather than the critical has undoubtedly contributed to the current crisis of mass misinformation However teaching students to use skim reading as a strategic tool for purposeful engagement and efficient yet thoughtful information filtering better equips them to navigate the rapidly changing information landscape and manage the fast paced flow of content from diverse media sources

A Pedagogy of Possibility Kay Halasek, 1999 In a book that itself exemplifies the dialogic scholarship it proposes Kay Halasek reconceives composition studies from a Bakhtinian perspective focusing on both the discipline s theoretical assumptions and its pedagogies Framing her discussions at every level of the discipline theoretical historical pedagogical Halasek provides an overview of portions of the Bakhtinian canon relevant to composition studies explores the implications of Mikhail Bakhtin s work in the teaching of writing and for current debates about the role of theory in composition studies and provides a model of scholarship that

strives to maintain dialogic balance between practice and theory between composition studies and Bakhtinian thought Halasek's study ranges broadly across the field of composition painting in wide strokes a new picture of the discipline focusing on the finer details of the rhetorical situation and teasing out the implications of Bakhtinian thought for classroom practice by examining the nature of critical reading and writing the efficacy and ethics of academic discourse student resistance and critical and conflict pedagogy The book ends by setting out a pedagogy of possibility what Halasek terms elsewhere a post critical pedagogy that redefines and redirects current discussions of home versus academic literacies and discourses
