

Scanners will never be the same

...now that Radio Shack has the amazing new Realistic 2001 with built-in microprocessor!

The PRO-2001 makes possible continuous, automatic reception of six UHF and VHF bands for all kinds of action — police, fire, Ham, weather, mobile telephone, railroad communications and more. And with its microprocessor you can program it for any 16 of 16,650 frequencies, without buying crystals!

Enter familiar area frequencies. Use the digital keyboard to punch-in actual frequencies for monitoring, storing or exploring — no codes or switches to slow you down. A special ENTER button reduces accidental entries. Digital readout shows which frequencies are being scanned, monitored or programmed into the memory. And you can monitor any frequency without entering it into the

scanner — it's like having a seventeenth channel for even greater versatility!

Search for "unknown" frequencies. The 2001's powerful search capability lets you find new, often unpublicized channels. Just enter lower and upper limits (they can even be in different bands) and select the search speed. The rest is automatic!

"Traditional" deluxe scanner features. LED channel indicators and individual lockout buttons. Automatic or manual scan. Switchable scan delay. High-speed skipper circuit. Built-in speaker, jacks for recorder, headphone, external speaker. With power cables for home or mobile use. The Realistic® 2001 — a revolution in action radio. \$399.95*.

*Monitor use of some states and countries may be subject to special permits. Check with us at Radio Shack.

*These credit cards cannot be used for purchases of more than \$500. Please see your local Radio Shack store for details.
