**The Lincoln Library of Essential Information an Up to Date Manual for Daily Reference, for Self Instruction, and for General Culture Named in Appreciative Remembrance of Abraham Lincoln, the Foremost American Exemplar of Self Education** ,1924 A Manual of Mediaeval and Modern History M. Thalheimer,2023-03-03 Reprint of the original first published in 1874 Religious Instruction for Soldiers in the First English Civil War, 1642-1646 Antti Taipale,2025-07-14 This monograph examines religion in the first English Civil War as a tool for war both in instructing soldiers and portraying the enemy It argues that thus far the remarkable differences between the teaching of Parliamentarian and Royalist ministers to their respective armies have gone largely unnoticed Relying on the methodologies of intellectual history combined with a comparative approach it offers a new interpretation of soldiers religious radicalism and highlights differences between the armies spiritual edification Hence it contributes significantly to the history of the Wars of the Three Kingdoms and to the study of political radicalisation leading up to the regicide of Charles I Moreover it offers a detailed study of the ways in which religion was used as a tool for war in the early modern period The role of religion has often been at the centre of historiography of the Wars of the Three Kingdoms 1639 1653 This prominence has culminated in the stereotypical character of a godly Puritan soldier especially in relation to the New Model Army However while there have been debates about the role and importance of religion for the conduct and success of the armies the theme of soldiers religious instruction as a tool of advice and indoctrination has received less attention The main aim of this book is thus to rectify this lack in the historiographical mainstream and to set out a new significant interpretation of the religious character of the Civil War
