*African Foreign Policies* Stephen Wright, 2018-02-22 This volume of thirteen original essays provides a timely analysis of African foreign policies in a post Cold War environment where African marginalization from the global economy appears to be increasing Three thematic essays give an overview of critical changes

Neethling, Heidi Hudson, 2013-10-01 Some of the bloodiest conflicts occur on the African continent An Afrocentric perspective is therefore a suitable starting point for research into the possible strategies for post conflict peacebuilding The authors of this book consider the problems around the concept of post conflict and the blurring of military and civilian roles analysing the UN roles in the DRC and Sierra Leone as well as the African Union Mission in Burundi The main context of the book however is the South African Army's strategy for PCRD in Africa which was developed with the African Union's 2006 Post Conflict Reconstruction and Development Needs Assessment Guide in mind This book emanates from this plan It therefore also explores South Africa's policy imperatives to integrate development projects and peace missions involving the military as well as civilian organisations While this book is not intended as an instruction manual it hopes to ignite an understanding of the particular processes required to develop a sustainable and cohesive post conflict peacebuilding strategy within the African environment **Military Unionism In The Post-Cold War Era** Richard Bartle, Lindy Heinecken, 2006-07-29

This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis      **The Transition to Democratic Governance in Africa** John Mukum Mbaku Esq.,Julius O. Ihonvbere,2003-04-30 Africa is currently experiencing sociopolitical and economic changes of unprecedented proportions New leaders institutions discourses and methods of political organization and action are shaping a new future Through a case study approach this essay collection provides a comprehensive analysis of the history trajectory actors institutions contradictions failures and opportunities in contemporary efforts at democratization in Africa While presenting the dynamics of democracy and democratization in several African countries they also look at critical issues in Africa s transition projects from political parties and elections through constitutions and constitutionalism to new structures of power and politics A provocative analysis for scholars students researchers and policy makers involved with African political and economic development      *Debates of the National Assembly (Hansard)* South Africa. Parliament (1994- ). National Assembly,2001      **A Military History of Modern South Africa** Ian van der Waag,2018-03-14 The story of a century of conflict and change from the Second Boer War to the anti apartheid movement and the many battles in between Twentieth century South Africa saw continuous often rapid and fundamental socioeconomic and political change The century started with a brief but total war Less than ten years later Britain brought the conquered Boer republics and the Cape and Natal colonies together into the Union of South Africa The Union Defence Force later the SADF was deployed during most of the major wars of the century as well as a number of internal and regional struggles the two world wars Korea uprising and rebellion on the part of Afrikaner and black nationalists and industrial unrest The century ended as it started with another

war This was a flash point of the Cold War which embraced more than just the subcontinent and lasted a long thirty years The outcome included the final withdrawal of foreign troops from southern Africa the withdrawal of South African forces from Angola and Namibia and the transfer of political power away from a white elite to a broad based democracy This book is the first study of the South African armed forces as an institution and of the complex roles that these forces played in the wars rebellions uprisings and protests of the period It deals in the first instance with the evolution of South African defense policy the development of the armed forces and the people who served in and commanded them It also places the narrative within the broader national past to produce a fascinating study of a century in which South Africa was uniquely embroiled in three total wars *Defensive Restructuring of the Armed Forces in Southern Africa* Bjørn Møller,Gavin Cawthra,2019-01-15 Published in 1997 the work explores the reorientation of security policies and the accompanying restructuring of the armed forces going on in Southern Africa under entirely new circumstances Democracy has come to South Africa the civil wars in Angola and Mozambique have ended and the region is establishing a regional framework for cooperation While covering the entire region a special focus is placed on South Africa which is predestined to play a leading role but which is struggling with the legacy of the apartheid regime and its repeated aggressions against neighbouring states A defensive restructuring of the South African of the South African military is an element in the building of mutual trust The implications of such defensive restructuring to a non offensive defence are described in detail In addition to the analytical contribution the work also contains central documents and a bibliography *South Africa News Update* ,1994 Consists of reproductions of articles from South African newspapers **The Devil In The Detail** Paul Holden,Hennie van Vuuren,2011-11-02 The South African Arms Deal was never a single event Rather it was and still is a series of scandals and outrages all contributing towards a dubious momentum that takes South Africa further away from transparent democratic practice The Devil in the Detail written by two of South Africa s leading researchers on the subject takes the reader on a journey of insight Witness at close hand the breaking open of State secrets with tales of outrageous personal enrichment Explore how the Arms Deal emerged out of the criminal networks of both the old SADF and the ANC s security apparatus raising questions as to whether South Africa s remarkable transition was not oiled at key points by criminal intent and collusion Follow the trail of the various offset deals done after the Arms Deal cumulatively worth just as much as and discover that corruption continues to impact on defence spending in South Africa Examine the economics and witness how the Arms Deal was not only economically irrational but virtually suicidal almost single handedly derailing the post apartheid economic project Finally read about the rise of the shadow state the politicisation of prosecutions and the rise of the spooks The remarkable conclusion of this landmark study is that years after the deal took place the forces that drove its decisions have only grown in strength further blighting South Africa s prospects for a future in which all may have a share **The Unspoken Alliance** Sasha Polakow-Suransky,2011-06-14 Prior to the Six Day War Israel was a darling of the international left vocally opposed to

apartheid and devoted to building alliances with black leaders in newly independent African nations South Africa for its part was controlled by a regime of Afrikaner nationalists who had enthusiastically supported Hitler during World War II But after Israel s occupation of Palestinian territories in 1967 the country found itself estranged from former allies and threatened anew by old enemies As both states became international pariahs a covert and lucrative military relationship blossomed between these seemingly unlikely allies Based on extensive archival research and exclusive interviews with former generals and high level government officials in both countries The Unspoken Alliance tells a troubling story of Cold War paranoia moral compromises and startling secrets

**Transnational Financial Crime** Nikos Passas,2017-07-05 Financial crime affects virtually all areas of public policy and is increasingly transnational The essays in this volume address both the theoretical and policy issues arising from financial crime and feature a wide variety of case studies and cover topics such as state revenue collection criminal enterprises money laundering the use of new technologies and methods in financial crime corruption terrorism proliferation of WMD sanctions third world debt procurement telecommunications cyberspace the defense industry and intellectual property Taken together these essays form a must read collection for scholars and students in law finance and criminology
