Sandor Lehoczky And Richard Rusczyk:

First Steps for Math Olympians: Using the American Mathematics Competitions J. Douglas Faires, 2020-10-26

Any high school student preparing for the American Mathematics Competitions should get their hands on a copy of this book. A major aspect of mathematical training and its benefit to society is the ability to use logic to solve problems. The American Mathematics Competitions (AMC) have been given for more than fifty years to millions of high school students. This book considers the basic ideas behind the solutions to the majority of these problems and presents examples and exercises from past exams to illustrate the concepts. Anyone taking the AMC exams or helping students prepare for them will find many useful ideas here. But people generally interested in logical problem solving should also find the problems and their solutions interesting. This book will promote interest in mathematics by providing students with the tools to attack problems that occur on mathematical problem solving exams and specifically to level the playing field for those who do not have access to the enrichment programs that are common at the top academic high schools. The book can be used either for self study or to give people who want to help students prepare for mathematics exams easy access to topic oriented material and samples of problems based on that material. This is useful for teachers who want to hold special sessions for students but it is equally valuable for parents who have children with mathematical interest and ability. As students' problem solving abilities improve they will be able to comprehend more difficult concepts requiring greater mathematical ingenuity. They will be taking their first steps towards becoming math Olympians.

The Art of Problem Solving, Volume 2 Sandor Lehoczky, Richard Rusczyk, 2006-06-01 offers a challenging exploration of problem solving mathematics and preparation for programs such as MATHCOUNTS and the American Mathematics Competition. Back cover

What High Schools Don't Tell You (And Other Parents Don't Want You to Know) Elizabeth Wissner-Gross, 2008-06-24. From the author of *What Colleges Don't Tell You*, a plan to help parents of middle and early high school students prepare their kids for the best colleges. In order to succeed in the fiercely competitive college admissions game you need a game plan and you have to start young. In this empowering guide Elizabeth Wissner-Gross, a nationally sought after college packager, helps parents of seventh to tenth graders create a long term plan that come senior year will allow their kids to virtually write their own ticket into their choice of schools. Parents should start by helping their kids identify their academic passions then design a four year strategy based on those interests. The book details hundreds of opportunities available to make kids stand out that most high school guidance counselors and teachers simply don't know about or don't think to share. This indispensable guide should be required reading for any parent whose child dreams of attending one of the country's top colleges.
