The Power of Knitting Loretta Napoleoni, 2020-10-13 Purl and stitch Empowering healing and reconnecting us to each other and ourselves. In a fractured world plagued by anxiety and loneliness, knitting is coming to the rescue of people from all walks of life. Economist and lifelong knitter Loretta Napoleoni unveils the hidden power of the purl and stitch mantra, an essential tool for the survival of our species, a means for women to influence history, a soothing activity to calm us and a powerful metaphor of life. This book is a voyage through our history following the yarn of social, economic and political changes from ancient Egypt and Peru to modern Mongolia, from the spinning bees of the American Revolution to the knitting spies of World War II and from the hippies' rejection of consumerism to yarnbombing protests against climate change. For the author, it is also a personal journey of discovery and salvation, drawing on the wisdom her grandmother passed along as they knit together. Revealing recent discoveries in neuroscience, *The Power of Knitting* offers proof of the healing powers of knitting on our bodies and minds. Breaking through societal barriers, even nursing broken hearts and helping to advance cutting-edge science, knitting is still a valuable instrument for navigating our daily lives. As a bonus, the book includes patterns for ten simple yet iconic projects that reflect the creative empowering spirit of knitting with complete instructions.

The Perfect Fit for Knitting: Totally Modern Patterning for Designer Essential Techniques, 2024-01-04. Introduction: It's all in the details. The use of what designers call "fully fashioned" shaping marks the difference between an ordinary ho-hum sweater and an undeniably spectacular fashion garment. Using mirrored increases and decreases, slanting certain stitches toward the left or the right to create design details can easily give a garment a couture touch. It is the construction difference between an 80 J Crew cashmere V-neck sweater and the one that sells for 200 in the same catalog. Though both are knitted out of the same soft yarn, the less expensive sweater is usually made by assembling front, back, or sleeve pieces cut from huge bolts of machine-knit fabric and then sewn with a serger, while the more expensive sweater is created with hand-manipulated machine-made knitting stitches. Many handknitters already use shaping details in their garments: decreases for armholes, necklines, or sleeve caps, and increases for sleeves. We don't cut our pieces into shape; we knit them into shape. But most knitters do not understand how shaping works or how to use simple increases and decreases to add visual interest to their garments. I've taught these techniques to hundreds of knitters, and during my workshop, they begin to look at their knitting in a whole new way. I still remember that exciting "aha" moment when a student in one of my classes worked her first fully fashioned V-neckline a few years ago. It's so neat and perfect she proudly proclaimed, "In these
