1 STUDYING POPULATIONS (pp. 284–285)

1. What do the living organisms that form a population have in common?

They are of the same species, and they live in a shared space.

2. Give two examples of a plant population and two examples of an animal population.

Answers will vary. Examples: the cactus trees in Las Vegas and the dolphins in the south Indian Ocean; the grassy meadows on Mount Kenya and the shrubs of the savanna in Botswana.

3. How can knowing the size of a wolf population be useful?

Answers will vary. Examples: It can tell us whether the population is healthy or in trouble, which will affect other species in the same environment.

4. For each of the following examples, name the factor that changed the population size (e.g., births, deaths, immigration or emigration) and identify its effect.

a) Every spring, Canada geese return to the shores of Lake Thoreau.

b) During a logging operation, the noise from the forestry vehicles scared away the white-bellied deer in the vicinity.

c) In the spring, a female bear nurses her three cubs in her den.

Community/Public Health Nursing Practice Frances A. Maurer, Claudia M. Smith, 2012-10-01 Focusing on practical need to know information Community Public Health Nursing

Practice helps you learn how to apply the nursing process at the community and family level. It features an engaging, easy-to-understand writing style as well as assessment tools, detailed case studies, and clinical examples that demonstrate how key concepts apply to real-world practice. Additional resources on the companion Evolve website expand and enhance content within the text. Practical features including Case Studies, Ethics in Practice, and The Nursing Process in Practice illustrate real-world applications of key community public health nursing concepts. A complete unit on the community as client helps you understand how the assessment, diagnosis, planning, intervention, and evaluation steps of the nursing process apply to the community as opposed to an individual. A chapter devoted to community assessment provides a complete assessment tool and shows you how the tool applies to two different types of communities. UNIQUE! A chapter on screening and referral promotes population-focused practice, which is the crux of community public health nursing. A separate unit on the family emphasizes the importance of viewing the family as a singular client. A complete discussion of the Minnesota Wheel helps you better understand this widely accepted framework for community public health nursing practice. Helpful sections such as Focus Questions, Chapter Outlines, Key Ideas, and Learning by Experience and Reflection help you pinpoint essential information. NEW! Healthy People 2020 objectives throughout the text help you identify common health risk factors in populations and families. NEW! Coverage of health care reform, including the Patient Protection and Affordable Care Act of 2010 (PPACA), explores how current health care legislation impacts community public health nursing. NEW! Discussions of community health hot button issues such as human trafficking, genital circumcision, and bullying introduce you to today's health care challenges. NEW! Information on weather-related disaster fatalities, bioterrorism, and national and state planning responses familiarize you with current relevant issues which affect the health of populations worldwide and shape the role of the community public health nurse.

Kathrynn A. Adams, Eva K. McGuire, 2022-01-27. The third edition of the Student Study Guide With IBM SPSS Workbook for Research Methods, Statistics, and Applications by Kathrynn A. Adams and Eva K. McGuire gives students even more opportunities to practice and apply their knowledge in statistics and research methods. Written by the authors of Research Methods, Statistics, and Applications, the third edition of the study guide follows the third edition of the textbook for straightforward assigning and practice. New features include practice quizzes to give students both recognition and recall activities for better retention. Learning objectives and brief chapter summaries from the main text remind students of what they've learned and orient students toward the exercises. In-depth exercises encourage students to build on their knowledge, requiring students to think critically and actively engage with the material. These exercises have been condensed and focus on moving students through the learning objectives at a quick pace. At the end of most chapters, Your Research sections encourage students to apply concepts to their own projects. Now placed at the end of the book, the IBM SPSS workbook provides instructions for performing statistical calculations. Included in this workbook are additional exercises to practice data
