

Pediatric Preventive Care Guidelines

About the MHQP Pediatric Preventive Care Guidelines

MHQP's 2023 guidelines were developed by a collaborative group of Massachusetts healthcare organizations. These are recommendations for providing preventive care to adult patients from the general population. These guidelines should not supplant clinical judgment or the needs of individual patients. These guidelines are intended as quality-practice recommendations and are not intended as a description of benefits, conditions of payment, or any other legal requirements of any particular health plan or payor. Each health plan or payor makes its own determination of coverage and benefits. In the event that these practice recommendations are inconsistent with any applicable laws or regulations, such laws or regulations take precedence.

Social Determinants of Health (SDoH)

- Review a completed SDoH screening tool and incorporate into the plan of care
- Develop an action plan at each visit with information available
 - Make sure that social determinants that are being targeted for recommendations are modifiable, like food insecurity, homelessness, lack of transportation, or inaccessibility to quality education
 - Individuals who are at high-risk of certain conditions due to unmodifiable social determinants, like race or age, should be subject to increased screenings as indicated
- Refer patients to additional team members for education, resources, and referrals as needed
- Discuss access to healthcare by asking: "Do you have any concerns that prevent you from keeping your health care appointments?"
- Assess health literacy by asking: "How confident are you filling out medical forms by yourself?"

Screening Tools and Action Plans

Social Needs Screening Tool: The Social Needs Screening tool screens for five core health-related social needs, which include housing, food, transportation, utilities, and personal safety, using validated screening questions, as well as the additional needs of employment, education, child care, and financial strain.

Develop an Action Plan: A quick form to guide a discussion with patients about their social determinants of health and document a plan to address them. The form is available in seven languages.

Community Resources

2-1-1: This resource helps individuals obtain information about receiving assistance in the event of a crisis, emergency, or natural disaster.

Find Help: This interactive tool helps individuals find free or reduced cost services related to food, housing, or transportation.

HelpSteps: This interactive tool provides information on how to access social services related to food, housing, and medical care.

General Resources

The EveryONE Project Toolkit: This toolkit offers strategies for use among clinicians to promote diversity and advance health equity in all communities.

THRIVE: THRIVE is also a tool for engaging community members and practitioners in assessing the status of community determinants, prioritizing them, and taking action to change them in order to improve health, safety, and health equity.

A Practitioner's Guide for Advancing Health Equity: The purpose of the Health Equity Guide is to assist practitioners with addressing the well-documented disparities in chronic disease health outcomes.

Cancer Disparities: This webpage provides examples of disparities in cancer, and the contributing factors behind these disparities.

Short Assessment of Health Literacy—Spanish and English (SAHL-S&E): The Short Assessment of Health Literacy—Spanish and English (SAHL-S&E) is a new instrument, consisting of comparable tests in English and Spanish, with good reliability and validity in both languages.

DEFINITION OF THE SOCIAL DETERMINANTS OF HEALTH FOR MHQP'S GUIDELINES PROGRAM:

Social Determinants of Health (SDoH) are the conditions under which people are born, grow, live, work, and age. SDoH can either help a patient's health (like living in a low crime neighborhood), or adversely affect it (such as living in a neighborhood with poor air quality and pollutants). Conditions can be modifiable, like food insecurity or homelessness, or unmodifiable, like race or age. ([AAP](#), [WHO](#))
