The Western Classical Music

Industry in Twenty-First Century China Weida Wang,2025-03-04

Weida Wang explores how Western classical music WCM has become increasingly popular in China framing the industry as a complex entity intricately embedded within China s political landscape cultural economy and cultural industries Wang highlights how authorities and organisers strive to build

powerful brands to support the industry's growth aiming to tap into the vast domestic market and showcase China's achievements in WCM on the global stage as part of broader cultural diplomacy efforts. The study delves into the mechanisms and underlying logics driving the rapid expansion of the WCM market in contemporary China. With the rise of China's economy since its government's late 1970s economic and political reform, WCM has become a useful tool for showcasing changes to the image of modern and contemporary China. At the same time, a new Chinese middle class following the rapid economic and cultural development in China's coastal cities has also emerged, becoming a substantial demographic involved in the learning, appreciation, and consumption of WCM. Especially in the past 20 years, a new WCM scene has developed quickly and established as an industry in China, one critically enmeshed in both the business and political worlds. Many ground-breaking cultural events have taken place in the last decades. These have shown themselves to be huge forces behind the development of China's domestic and fledgling international classical music aspirations. The book will be valuable for those interested in arts, music management, music industry studies, China studies, cultural and creative industry studies, and ethnomusicology.

Woolf: A Guide for the Perplexed Kathryn Simpson, 2016-02-25 Virginia Woolf is one of the best known and most influential modernist writers, an iconic figure. Her image and reference to her work and life appear in the most varied of cultural sites. Her writing is, however, in many ways kaleidoscopic and has given rise to a diverse and sometimes conflicting body of critical work. Whilst Woolf envisaged that her readers could be fellow workers in the creative process, there is much to perplex any reader approaching her writing, especially for the first time. Drawing on some of the main critical debates and on Woolf's non-fictional writings, this guide untangles some of the difficulties and perplexities that can prove a barrier to understanding of Woolf's writing. These include aspects of the process of writing, such as narrative techniques, formal structures, characterisation, as well as the thematic concerns so central to Woolf's writing: the cultural context in which it emerged and to recent criticism, including representations of gender and sexuality, class, and race.

Sound Pedagogy Colleen Renihan, John Spilker, Trudi Wright, 2024-02-06 Music education today requires an approach rooted in care and kindness that coexists alongside the dismantling of systems that fail to serve our communities in higher education. But as the essayists in *Sound Pedagogy* show, the structural aspects of music study in higher education present obstacles to caring and kindness, like the entrenched master student model, a neoliberal individualist and competitive mindset, and classical music's white patriarchal roots. The editors of this volume curate essays that use a broad definition of care pedagogy, one informed by interdisciplinary scholarship and aimed at providing practical strategies for bringing transformative learning and engaged pedagogies to music classrooms. The contributors draw from personal experience to address issues including radical kindness through universal design, listening to non-human musicality, public musicology as a forum for social justice discourse, and radical approaches to teaching about race through music. Contributors: Molly M Breckling, William A Everett, Kate Galloway, Sara Haefeli, Eric Hung, Stephanie Jensen Moulton, Mark Katz, Nathan A Langfitt.
