White,2022-07-29 Tending the Fire at the Center of the World engages the central question of Christian formation that is what kind of knowing is most likely to awaken and sustain Christian faith This book seeks to reclaim aesthetics beauty and creativity as the church s most native theological way of knowing and being which participates with God s own glory and creativity This book traces the prominence of aesthetics up until the dawn of the Enlightenment including recent theologians who reclaim aesthetics for theology and formation The book elaborates the aims and techniques of aesthetic approaches to teaching and learning in the church Finally this book cautions against overly determined rationalisms and moralisms that do not retain a sense of wonder delight and openness in the church s teaching liturgy and proclamation In this view the church does not simply regurgitate familiar texts political tropes or flattened doctrines but breaks into the world as Christ s body a parable a song a flash mob interrupting business as usual giving new expression to acts of care repentance forgiveness joy
