Shebanek,1993-09-17 This book is about the advanced object oriented NEXTSTEP™ user environment for NeXT and Intel based computers It is intended for those who already own a computer running NEXTSTEP and want to quickly learn what it can do and how to get the most out of it with the least effort It s also for those who are considering the purchase of NEXTSTEP but want to learn more about how it works before making an investment Why a book on NEXTSTEP When I set out to learn how to use NEXT STEP several years ago I found it extremely difficult to find information from the usual sources such as books magazines user groups and authorized dealers NEXTSTEP users were scarce and finding a computer store that sold NeXT related products was even more rare There were also only a handful of NeXT user groups in existence and those that did exist met so far away that joining one of them was impractical The manuals I received from NeXT were helpful but I had the feeling there must be something more to it than what was written in the User s Reference It didn t describe many of the shortcuts that experienced users had found or the public domain and shareware utilities that were popular and how I could use them to make my work even easier
