Intelligent Systems for Manufacturing Luis M. Camarinha-Matos, Hamideh Afsarmanesh, 2013-06-29 Towards Intelligent Manufacturing Systems This book contains the selected articles from the third International Conference on Information Technology for Balanced Automation Systems in Manufacturing A rapid evolution in a number of areas leading to Intelligent Manufacturing Systems has been observed in recent years Significant efforts are being spent on this research area namely in terms of international cooperative projects like the IMS initiative the USA NIIIP National Industrial Information Infrastructure Protocols project or the European ESPRIT programme and a growing number of conferences and workshops The importance of the Information and Communication Technologies in the manufacturing area is well established today The proper combination of these areas with the socio organizational issues supported by intelligent tools is however more difficult to achieve and fully justifies the need for the BASYS conference and the publication of the series of books on Balanced Automation Systems The first book of this series focused on the topic of Architectures and Design Methods was published in 1995 Many of the fundamental aspects of manufacturing and some preliminary results were presented in this book Among others the topics included Modeling and design of FMS Enterprise modeling and organization Decision support systems in manufacturing Anthropocentric systems CAE CAD CAM integration Scheduling systems Extended enterprises Multi agent system architecture Balanced flexibility Intelligent supervision systems Shop floor control and Computer aided process planning

In Search of the Holy Grail Veronica Ortenberg, 2006-01-01 This book surveys the influence of the middle ages and of medieval attitudes and values on later periods and on the modern world Many artistic political and literary movements have drawn inspiration and sought their roots in the thousand years between 500 and 1500 AD Medieval Christianity and its rich legacy has been the essential background to European culture as a whole Gothic architecture and chivalry were two keys to Romanticism while nationalists including the Nazis looked back to the middle ages to find emerging signs of national character In literature few myths have been as durable or popular as those of King Arthur stretching from the Dark Ages to Hollywood In Search of the Holy Grail is a vivid account of how later ages learnt about and interpreted the middle ages
