Yamamoto,2000-12 The United States in the twenty first century will be a nation of so called minorities Shifts in the composition of the American populace necessitate a radical change in the ways we as a nation think about race relations identity and racial justice Once dominated by black white relations discussions of race are increasingly informed by an awareness of strife among nonwhite racial groups While white influence remains important in nonwhite racial conflict the time has come for acknowledgment of ways communities of color sometimes clash and their struggles to heal the resulting wounds and forge strong alliances Melding race history legal theory theology social
