Use the following format to record pertinent findings during the examination process:

| Examination Component | Findings |
|--|----------|
| Functional skills (including gait, if appropriate) | |
| Muscle tone | |
| Range of motion | |
| Skeletal alignment | |
| Balance/postural control (including automatic responses, anticipatory postural control, and voluntary postural control) | |
| Muscle strength | |
| Quality of movement <ul style="list-style-type: none"> • Postural alignment • Patterns of weight bearing • Use and variety of movement patterns • Use of compensatory strategies • Symmetry versus asymmetry • Grading and control of movement • Sequencing and planning of motor activities • Sensory processing skills | |
| Evaluation/Diagnosis/Prognosis: Following the physical therapist examination, complete the following steps in the patient/client management process: | |
| Evaluation: What are the child's strengths? | |
| Evaluation: What are the physical therapy problem areas (impairments, functional limitations, activity restrictions)? | |
| Evaluation: How do these physical therapy problem areas affect this child's function? How do these physical therapy problem areas result in activity limitations or restrict the child's ability to fully participate in activities that are appropriate for the child's age? | |
| Evaluation: Do any of these problem areas have the potential to lead to the development of other problem areas? Can these future problems be prevented? How? | |
| Evaluation: What changes are coming up for this child and family in the next year? What do you expect this child's anticipated level of function to be in 1 year? In 5 years? What needs to be done now to maximize future independence and function? | |
| What is the physical therapist diagnosis? | |
| What is the physical therapist prognosis? Which 1 or 2 problem areas are the rate-limiting factors to this child's function? | |
| Are referrals to other practitioners indicated? | |
| Are the hypothesized goals reasonable and attainable? Why or why not? Can the hypothesized goals be modified to reflect both the family's goals and the examination findings and to maximize future functional independence? Why or why not? | |
| Are physical therapy services indicated? Does the child present needs related to wellness and prevention? | |
| If indicated, develop the physical therapy plan of care, including anticipated goals and expected outcomes as refined during this step, the specific physical therapy interventions to be used, the proposed frequency and duration of physical therapy services, anticipated dates for re-examination and readministration of outcome measures, and predicted plans for discharge. | |
