

Pegson 1000 Maxtrak & Pegson 1000SR

The high performance Powerscreen® Pegson 1000 Maxtrak is a small to medium sized cone crusher which has been designed for direct feed applications without pre-screening on clean rock. At its heart is the Automax® cone crusher which provides excellent reduction and product cubicity for the production of high quality aggregate and sub-base material. Hydraulic release capabilities are designed so that any uncrushable material entering the chamber is safely discharged.

The Powerscreen® Pegson 1000SR features a re-circulating conveyor and a double-deck screen to provide the complete crushing and screening process on a single chassis. Suitable for secondary and tertiary applications, the Pegson 1000SR can produce up to three products when oversized material doesn't require re-circulation to the crusher.

Features & Benefits
