Peintures Française 1500 1800:

Masterpieces of European Painting, 1800-1920, in the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), Kathryn Calley Galitz, 2007 **Art and Architecture in France, 1500-1700** Anthony Blunt, Richard Beresford, 1999-01-01 The sixteenth and seventeenth centuries in France were an epoch of spectacular artistic activity exemplified by the châteaux of the Loire valley the palace of Versailles the paintings of Poussin and Claude and the sculpture of Coysevox which echo the political and cultural importance of France and the Sun King Anthony Blunt presents major artists and their principal works chronologically provides an overview of the main projects of the period and of the artistic personalities behind them and clearly sets the historical context This new edition of one of the classics of the Pelican History of Art series has been revised and updated with color illustrations and a new bibliography **Battlefield Emotions 1500-1800** Erika Kuijpers, Cornelis van der Haven, 2016-12-14 This book explores changes in emotional cultures of the early modern battlefield Military action involves extraordinary modes of emotional experience and affective control of the soldier and it evokes strong emotional reactions in society at large While emotional experiences of actors and observers may differ radically they can also be tightly connected through social interaction cultural representations and mediation The book integrates psychological social and cultural perspectives on the battlefield looking at emotional behaviour expression and representation in a great variety of primary source material In three steps it discusses the emotional practices in the army the emotional experiences of the individual combatant and the emotions of the mediated battlefield in the visual arts **La renaissance du sentiment classique dans la peinture française ? la fin du 19^e siècle** R. Rey, *Bibliography of French Painting--17th and 18th Centuries*, 1937 *Catalogue général de la librairie française: 1900-1905. Table des matières* Otto Henri Lorenz, 1910 *Mariette and the Science of the Connoisseur in Eighteenth-Century Europe* Kristel Smentek, 2017-07-05 Celebrated connoisseur drawings collector print dealer book publisher and authority on the art of antiquity Pierre Jean Mariette 1694 1774 was a pivotal figure in the eighteenth century European art world Focusing on the trajectory of Mariette's career this book examines the material practices and social networks through which connoisseurs forged the idea of art as an object of empirical and historical analysis Drawing on significant unpublished archival material as well as on histories of science publishing collecting and display this book shows how Mariette and his colleagues practices of classification and interpretation of the graphic arts gave rise to new conceptions of artistic authorship and to a history of art that transcended the biographies of individual artists To follow Mariette's career through the eighteenth century is to see that art was consolidated as a specialized category of intellectual inquiry and that style emerged as its structuring analytic device in the overlapping spaces of the collector's cabinet the connoisseur's portfolio and the dealer's shop *Drawing an Elusive Line* Elizabeth E. Guffey, 2001 Moreover the book explores Prud'hon's prescient comprehension of a dawning art market among the newly powerful middle class while tracing the sources of his more traditional imperial patronage In

surveying the breadth of Prud'hon's graphic output *Drawing an Elusive Line* includes more than 150 drawings by the artist, some little known or previously unpublished. Jacket **Catalogue général de la librairie française: 1900-1905, matières : A-Z**, 1908 ["French Paintings of Childhood and Adolescence, 1848-1886"](#) Anna Green, 2017-07-05 The premise of Anna Green's timely and original book is that nineteenth century representations of childhood and adolescence in paintings but also in other forms of visual culture and in diverse written discourses of the period are critical for understanding modernity. Whilst such well worn signifiers for modernity as the city, the dandy and the prostitute have been well mined, childhood and adolescence have not. Paintings of the young produced in France from 1848 to 1886, Green contends, inform not only our understanding of modern life but also our perception of modernist or avant-garde painting. Figuring largely are Manet and the Impressionists as well as a gamut of more traditional painters of children who are crucial in providing context for the avant-garde. Because modernity is an essentially urban phenomenon, Green's focus is primarily on the city, usually Parisian child. The painted youth of her study are organized initially by class and gender. Then the chapters are structured according to themes: parent-child relations, modes of discipline, work, education and play, the spectacle, sexuality that straddle the congruences among the book's triple trajectory: the young, their modernist representations and the experience of modernity. Green's interdisciplinary approach ensures that this book will be of interest not only to art historians but to all those concerned with the cultural and social history of childhood. *The Académie Royale de Peinture et de Sculpture* Christian Michel, 2018-02-06 The Académie Royale de Peinture et de Sculpture, French Academy of Painting and Sculpture, perhaps the single most influential art institution in history, governed the arts in France for more than 150 years from its founding in 1648 until its abolition in 1793. Christian Michel's sweeping study presents an authoritative in-depth analysis of the Académie's history and legacy. The Académie Royale assembled nearly all of the important French artists working at the time, maintained a virtual monopoly on teaching and exhibitions, enjoyed a priority in obtaining royal commissions and deeply influenced the artistic landscape in France. Yet the institution remains little understood today, all commentary on it during its existence and since its abolition is based on prejudices, both favorable and critical, that have shaped the way the institution has been appraised. This book takes a different approach. Rather than judging the Académie Royale, Michel unravels existing critical discourse to consider the nuances and complexities of the academy's history, reexamining its goals, the shifting power dynamics both within the institution and in the larger political landscape and its relationship with other French academies and guilds. *The Brothers Le Nain* Esther Susan Bell, Claude Douglas Dickerson, Nicolas Milavancovic, Alain Tallon, 2016-01-01 A beautiful volume that brings to light the forgotten Le Nain brothers, a trio of 17th century French master painters who specialized in portraiture, religious subjects and scenes of everyday peasant life. In France in the 17th century, the brothers Antoine c. 1598-1648, Louis c. 1600-1605, 1648 and Mathieu 1607-1677, Le Nain painted images of everyday life for which they became posthumously famous. They are celebrated for their depictions

of middle class leisure activities and particularly for their representations of peasant families who gaze out at the viewer The uncompromising naturalism of these compositions along with their oddly suspended action imparts a sense of dignity to their subjects Featuring more than sixty paintings highlighting the artists full range of production including altarpieces private devotional paintings portraits and the poignant images of peasants for which the brothers are best known this generously illustrated volume presents new research concerning the authorship dating and meaning of the works by well known scholars in the field Also groundbreaking are the results of a technical study of the paintings which constitutes a major contribution to the scholarship on the Le Nain brothers

French Master Drawings from the Collection of Muriel Butkin Carter E. Foster, Sylvain Bellenger, Patrick Shaw Cable, Cleveland Museum of Art, 2001 Accompanying an exhibition at the Cleveland Museum of Art last fall and now at the Dahesh Museum in New York this catalog focuses upon the French drawings in Muriel Butkin's highly specialized collection which she has promised to the Cleveland Museum To assemble her diverse yet nicely integrated set of drawings Butkin started buying 18th century French drawings when they were affordable In the mid 1970s with the guidance of art historian Gabriel Weisberg she expanded her collection to include 19th century French drawings These drawings were counter to the mainstream impressionist and postimpressionist taste of the time and focused more on academic French subject matter such as life drawings portraits or compositional studies In the preface Butkin herself reinforces her taste by saying that drawings are much more personal and spontaneous than paintings often demonstrating the artistic process Foster curator of drawings at the Cleveland Museum and other scholars present a well researched volume that contributes new information to a very specialized field of art history It is greatly disappointing however that the bulk of the reproductions are in black and white often missing the subtly colored tones in many of the drawings Nonetheless this is recommended for museum and academic libraries that support graduate programs in art history 183 b w illustrations

Art and Religion in Eighteenth-Century Europe Nigel Aston, 2009-07-15 Eighteenth century Europe witnessed monumental upheavals in both the Catholic and Protestant faiths and the repercussions rippled down to the churches religious art forms Nigel Aston now chronicles here the intertwining of cultural and institutional turmoil during this pivotal century The sustained popularity of religious art in the face of competition from increasingly prevalent secular artworks lies at the heart of this study Religious art staked out new spaces of display in state institutions palaces and private collections the book shows as well as taking advantage of patronage from monarchs such as Louis XIV and George III who funded religious art in an effort to enhance their monarchical prestige Aston also explores the motivations and exhibition practices of private collectors and analyzes changing Catholic and Protestant attitudes toward art The book also examines purchases made by corporate patrons such as charity hospitals and religious confraternities and considers what this reveals about the changing religiosity of the era as well An in depth historical study Art and Religion in Eighteenth Century Europe will be essential for art history and religious studies scholars alike
